The Committee to draught a Letter to the Committees of the Towns of Wrentham & Medway Reported their draught & the same having been considered & Ammended was Accepted by the Town — And is as follows to Viz^{t}.

To M^{r}: Joshua Partridge Chairman of the Committee of the Towns of Wrentham & Medway, and Acting by Advice of the Selectmen of the Towns of Franklin & Bellingham

Sir

The Selectmen of the Town of Boston have Received a Letter sign'd by you as Chairman of a Committee choes by the Towns of Wrentham and Medway (with the Advice of the Selectmen of Franklin & Bellingham) to write Letters in order to procure a Meeting of the County of Suffolk, — to take into consideration the Commutation to the Officers. And the Act of this State granting an impost to Congress — This Letter Sir was laid before a very full Meeting of this Town, legally Assembled and After a fair Debate it was unanimously Determined, to express the sorrow of the Town that, at a time when we have a constitution of our own chusing, and which has been approved of by the World, there should yet remain any uneasy Persons in the community who could form the fruitless design of disturbing [**316.**] the tranquility of the State by proposing the unnecessary measure of Meeting by Counties — There was a time when we were governed by foreign Power, and a redress of grievances could be had in no Other way; but thank Heaven, that time is gone, & gone forever, unless the baneful influence of a few restless Spirits should induce the People at Large by County Meetings and irregular Assemblyes to raise such commotions, as might eventually Overturn the Constitution and again leave us a prey to foreign Power, or what is worse intestine convulsions — If Congress sometime err, we should remember, that being annually elected we have it in our Power, by a better choise to prevent the evil in future; — the same is the case of the General Court, they have existance but for a year; — and there can be no doubt the community at large would be very greatly benefitted if the Towns in particular would exert themselves to put their most suitable Characters into these important stations. — With respect to the subject of your Letter Commutation, and the Act of the State on the Impost, we must take the Liberty to express our entire disapprobation of your intended endeavours, as they seem clearly to us, to be not only vain but very unjust. Why should we wish to keep from the Officers of our Army the hard earned reward they may receive from the Commutation? It was promised most solemny by Congress in the hour of Danger. It was then Approved of by the People, and ought on very equitable principal to be made good in this Day of Peace, a Peace Obtained by the perilous exertions [**317.**] of these very men (in conjunction with our Magnanimous, Allies) who are to receive the pittance, and a pittance it is, when we consider the Money they realise from this mighty boon, will not make good the arrearages of their pay; and altho your Towns, and the Towns of the Selectmen whose Advise you follow, may be Adverse to the Commutation, yet we presume they will not deny the Justice of pay for the time they were in actual Service: If they will raise immediately as much Money as will pay their proportion of Only two thirds of the arrearages due to the Officers — with this Money they may purchase the Amount of the whole, and the commutation into the Bargain. This we think the only way for those who say they

are agrieved to settle the matter. — For if the States were able to prevent paying it (and could be once so lost to a Sence of Justice and honor as to desire it) the Commutation is so wisely blended with the National Debt, that all the County Conventitions upon the face of the Earth could not make the distinctions. If therefore there are any who have the Ability, but want the honesty to contribute their proportion they must set down contended, for in our Opinion it is out of their power to prevent it. — With respect to the Impost, we are of Opinion that if we ever mean to be a Nation we must give power to Congress and funds too; for without them we can never pay our Debts; and without a just payment of our debts, in what other light can [**318.**] we be possibly viewed by the World in general and every honest Man in particular, than that of Bankruptcy or Knavery? The former is by no means the Case, for we are Rich in recorses, and want only the Will to bring them out — and we trust the Latter will never be justly charged to the United States — We therefore desire, as far as this Town has a voice in the County, that the proposed Convention may never meet: but if they should, we hope they will so far consider the justice and propriety of submitting to those Acts which they now complain of as a grievance as chearfully to Acquiesce in them; and that they will then seperate, without taking any steps, that may eventually tend to bring, this Country into contempt; for if they should, we shall be constraind, as in duty bound, solemny to protest against them —

Voted, that the foregoing Letter be signed by the Town Clerk in behalf of the Town and transmitted as soon as may be

Voted, that the Letter from the Committee of Medway together with the foregoing be published as soon as may be

then the Meeting was
Dissolved

The Comittee appointed to consider of a future Arangment of the free Schools In this Town beg leave to Report —

That they cannot on this Occasion, avoid expressing a Veneration of our Ancistors for their Wisdom, Piety and early Care in providing for the Instruction of Children, not only in Reading, Writing and Arithmetick which [322.] are Necessary to qualify them for common and ordanary Employments, but also in establishing Grammer Schools in which such of them as may be inclined may have the oppertunity of being initiated into a further Degree of Education, whereby they may be rendered more eminintly useful to the Community as they successively enter upon the Stage of Life. Our free Schools seem to have been interested for the Benefit of the Poor and the Rich; that the Children of all, partaking of equal Advantages and being placed upon an equal Footing, no Distinction might be made among them in the Schools on Account of the different Circumstances of their Parents, but that the Capacity & natural Genious of each might be cultivated & improved for the future Benefit of the whole Community. The Institution appears so exceedingly important to this great End, that it must give Pain to every one who duly regards the future Wellfare of the Community, when

any of the Children are found even in School Hours, playing in the Streets, or still worse gathering into Clusters and inuring their impressive Minds to the abominable Vice of gaming by practicing in the lowest Arts of it — Whether such Instances are owing to the too fond Indulgence of Parents — or too lax a Government in Schools, or to any other Cause the Disgrace which it may [323.] bring on the Town in the Opinion of Observing sensible Foreigners will be among the least of its evil Effects, Much depends upon the Characters & moral Conduct as well as the Abilities of those who are the Instructors of Children & youth; and therefore it is much to be wished, that it may be especially recommended to the Selectmen to take Care that no Person may be Allowed to Open a Private School without their Approbation agreeable to a good and Salutary Law of the Commonwealth. —

Moreover the Practice of the School-Masters in instructing the same Children who are intitled to the Benifit of the publick Schools, at other Hours than those devoted to the Town hath a Tendency to draw their Attention from the Publick to the private Schools, to excite on odious Distinction between those whose Parents can Afford the Expence of their Attending the private Schools & those who cannot. — And it greatly increases the General Expence of Education. — It is therefore the Opinion of the Committee that the Schoolmasters employed by the Town ought not to teach such of the Male Children of the Inhabitants as are under the Age of fourteen years, in the same branches of Learning at their private and the publick Schools —

If the foregoing Opinions of the Committee respecting the Practice of the Schoolmasters shall meet the Approbation of the [324.] Town, they will in that case be abridged of certain Perquisetes which they have heretofore received, with, at least the tacit Consent of the Town; and therefore the Committee beg leave to recommend to the Consideration of the Town Whether such Adition should not be made to their Salaries as to enable them to support their own Children & Families and in the Exercise of that Cardinal Virtue, Prudence to lay up for them such a Moderate Overplus, as every industrious & provident Inhabitant wishes to do for his own Family at the Period of Needfulness or Life — But if the Town should think it proper that the practice should continue with Respect to the Instruction of any of the Children at what are called private Hours, the Committee recomend that the terms of Instruction at such Hours be regulated by the Selectmen or a standing Committee for regulating the Schools —

The case of the Female Children of the Town, in the Opinion of the Committee requires particular Consideration, Whether some Provision should not be made for them, as is necessary to render them more useful Members of the Community; especially those whose Parents are unable to Afford them such Instruction. —

The Committee were at Pains to ascertain how many Children do & how many do not, enjoy the Benifit of any Schools either

Publick or Private, Apprehending the [**325.**] Number to be very large also the Names of the Persons who are private instructors in the Town but having failed of Obtaining this Information which however the Committee consider as very necessary to be Obtain'd by the Town they have not been Able to form a Plan, as they intended on this Ground. But they venture to recomend for the present, that the Overseers of the Poor be Authorized, to give Certificates to such Parents or Guardians as may Apply, or who, they may be convinsed, are not able to bear the expence of haveing their Children instructed in the early Stage of School Instruction (and the Female Children of a Suitable Age in common Nedle work) for which no provision is already made, & that they allow such Schoolmasters & Schoolmistresses as they shall direct, the usual Sum given ℔er Week for the Instruction of each of such Children.

The foregoing Report having been read and considered, the Town came into the following Votes. Viz^{t}: —

Voted, that the practise of the Schoolmasters in receiving Entrance & Fire Money (so called) be abolished as inconsistant with that Freedom of Education which was originally intended in the Institution of the Publick Schools and introductory of such Distinction as injure the Minds of the Scollars & tending to deprive many Poor Children of the Benefit of the s^{d}. Schools

Selectmen a Committee to Act upon Leist of Jurors --

The Subscribers being appointed by the Town to met & confer with the Committee of the [**339.**] Several Towns in the County of Suffolk, upon a Petition exhibited to the General Court in their last Session for forming into one County Ten Towns in the County of Suffolk & four Towns in the County of Middlesix, having in consequence of the Same Appointment at Dedham on the 22 Day of April 1784 — met in convention the Delagates from the Towns of Roxbury, Milton, Braintree, Hingham, Stoughton, Sharon & Brookline in Addition to the Ten Towns in the County of Middlesex Joining in the same Petition being present & having confer'd upon the subject matter of the same Appointment

Do Report,

That it appeared to your Committee, that the Eleven Petitioning Towns who not in Convention by their Delagates were by no means unanimously, agreed in the expediency of having the sd. fourteen Towns incorporated into one County & that all the other Towns then present by their Delagates were against the Measure the reasons offered in favour of the Measure as your Committee recollect them were, that the Business of the Courts of Justice in the County of Suffolk had become so extensive, that Parties Witnesses, & Jurors we were commonly Oblige to attend at the Court of Common Pleas for the Space of three Weeks together and sometimes longer — that the Travel from the extreeme parts of the County to the Shire Towns was longe & expensive that the Regester of Deeds being remote from the Center of the County rendered the securing new purchases very inconvenient — That the Probate Court being at a Distance from the Petitioning Towns rendered the settlement of Estates under [**340.**] Administration expensive — And that the Interest & manners of the People in the Sea Port Towns were diverse & disimelar from those in the Country Towns — Your Committee by their Appointment being Obliged to take the aforegoing Reasons under their consideration & Discusion, think it their duty to Submit to the Town their Objections to the Measure of forming a New County in the manner proposed by the aforementioned Petitioners in any other manner at present —

your Committee upon An enquiry into the proportion of Buisness done in the several Countys of Worcester Middlesex, Essex, & Suffolk, find that there are more Actions entered in the County of Worcester, than in the County of Suffolk, & nearly as many in either of the Other Countys above mentioned — Whereupon

they conclude that the Oppressive Attendance required of Parties, Witnesses & Jurors in the County of Suffolk (if any such there is,) arises from some other Cause than that of the increase of Buisness or the multiplication of Law Suits, because the Courts of Common Pleas in the other Countys Above mentioned, do not usually continue their Session for more than the space of one Week —

If the Buisness of a County Court is unreasonabley protracted it cannot be a Cause of dividing one County into several but the grevance ought to be redressed in some other Way as the Constitution of the Commonwealth has provided your Committee find that the Probate Court is Obliged by Law to become Ambulatory, and to [**341.**] set in Various parts of the County by which the Inhabitants receive great ease & can have nothing further done for their Benefit at present unless Countys are created by very small & important Demensions, or the Court holden in future nigher the center of the County, the mescheivous tendency of the one and the Inconvenience of the Other are mentioned in this report hereafter —

The other reasons offered excepting that of a deversety of Interest & dissimerality of manners Apply's alike to every County in the Commonwealth it would undoubtedly be conveniant for the People in each part of the State to have Courts of Probate, Regestries of Deeds & every other office of Goverment near their own Dwellings respectivaly, but as this is in its nature impossible, to render the particular Circles of Juries prudence as small as consests with the Safety and Dignity of the State at large is all that can be done with propriety & Wisdom —

The Particular Countys of this Commonwealth originated, rather from the accidental settlement of the several parts of the State than from any system which regarded the future care convenience or Interest of the People. And will therefore in the course of a few years, when the State shall be more generally covered with Inhabitants undergo such a charge & receive fresh alterations as will render their Lives convenient & parnanent. And should, one or more small Countys be erected at this Period, it is very probable, that a Necessaty of a final, & equal regulation of Countys, may in a short time render the expence now to be borne useless, & Idle —

Your Committee conceive [**342.**] That when a new regulation of Countys shall take place, the prudence & sagacity of a free & intelligent People, wisely regarding the dignity & energy of this Goverment will never suffer these Countys to be rendered small & contemptable for as Goverment is the Delagation of Power from the whole People to a few the weight & Authority of a few who hold the Magistratical Power, Deminishes in proportion to the

Multiplication of Magistrates & therefore there must be in Nature a Line, whilst if exceeded on the one Hand will lessen the Just & necessary Weight of Goverment too much to consist with the happiness of the People, while an Error on the other may render Goverment Dangerous to that Interest it is intended to preserve. —

Should a new County be now erected by the Limits proposed it would introduce a precidant for making many others within the State the consequence of which inevitably would be the Multiplication of Officers & detracting from that Just Authority & Dignity of Office without which Civil Society can never be secure & happy —

Should an Inclination for new Countys be encouraged & prevail, so many wise & Able Men would be employ'd to fill Those places which are incompatable with a Seat in the Legislature that the Publick Councils would not possess that Wisdom & Ability which at this time is necessary to the Welfare of the People [**343.**] And your Committee take leave further to Add, that making new Countys would produce a great Number of Other Officers, whose Buisiness though not constitutionally incompatable with a Seat in the Legislature yet renders them less useful there besides as the Legislature is the place from whence the power of the Magistrate in most instances is Derived, it might be a Question whether there ever ought to be a considerable proportion of Men Clothed with Executive Authority holding Seats in the General Court —

It is true that the Town of Boston stands remote from the local Centre of the County, but is well known that the Center of Interest & Buisness is more regarded by Men than the local Center of Districts — hence while the interior Countys which have no Market Towns or places, peculiar, to Commerce, fix — their Seat of Justice near the middle of their Circumferance the People Inhabiting the Sea port Districts, in this and every other Country, Attend the Buisness of Courts and the Metropolis of Trade, the convenience of which is fully Evinced by the consent & practice of Ages. To Burden the People at this time with a New Tax, for Court Houses, Goals &c — while the publick Debt rests so heavily upon their Shoulders, would in the Opinion of your Committee, be discovering a Trait for innovation quite unbecoming a Country Circumstanced as this is —

Your Committee were Obliged to Observe against the pretented reason said to arise from a Division of Interest between [**344.**] The Sea Port, and the Country Towns, that the happiness of the People must deminish, in proportion as Trade & Agriculture shall decline, that they go hand in hand & necessarily produce and support each other, the Husbandman will cease his Industry when

he has no Market for the Superabundant produce of his Soil, and the Merchant will quit his Enterprize when his Country produces nothing to export; can it be wise then even supposing seperate unconected Interest could exist to take Measures to make the Separation still wider: or can it be for the Interest of the Country at this time to originate Ideas of a diversity of Interests and to throw the Farmer into an imagination that his Country can be rendered safe and himself happy with no incentive to raise more from his Sale than his personal necessaity shall demand — Commerse must be encouraged by Agriculture & our extensive Sea Coasts be by Ships supported, by Commerce defended against the Insults of every hostile Foreigner wherefore your Committee Apprehend that every Step (which tends to Cultivate an Opinion in the People of a Diversity of Interest is Dangerous to the welfare of the Commonwealth, nor is there so great a dissimerality of Manners between the Sea port & Country Towns, as is pretended, uprightness of Heart & purity of Intention seem to be equally disseminated among the Several Towns your Committee beg leave to conclude their Report by observing that in the late Revolution. the People [345.] having thrown off their Ancient Principles, & not as yet fully comprehending, the Nature or feeling the force of the New Ones, they have embraced, may be a Multiplication of novelties, be rendered restless uneasy & unhappy under one of the best & most equal Goverments with which Any part of the human Race were ever blessed —

Friday May 28th 9 OClock forenoon Met According to Adjournment —

The Committee to prepare a Petition to the General Court against dividing the County report the following Draught Vizt.

Commonwealth of Massachusetts —

To the Honble: the Senate and the Honble: the House of Representatives of sd. Commonwealth in General Court Assembled at Boston May 1784 —

The Inhabitants of the Town of Boston beg leave most respectfully to Submit to the following Objection the Petitions of the [**359.**] Towns of Dedham, Medfield, Wrentham Needham, Medway, Bellingham, Foxbourough, Sherburne, Hopkington, Holliston & Natick, Praying for a Division of the present County of Suffolk & the requesting the creating a New one, to the consideration of this Honble: Court & pray the proposed Dismembermant of this County may not be Adopted —

The reasons assigned in the Petition are 1st. That the Business of the Courts of Justice in the County of Suffolk had be come so extensive that Parties, Witnesses & Jurors are commonly obliged to Attend at the Court of Common Pleas for the space of three Weeks together & sometimes longer & that the Travel from the extreme parts of the County to the shire Town is large & expensive —

2d. That the Registry of Deeds being remote from the Center of the County renders the Securing new Purchases very inconvenient

3d. That the Probate Court being at a Distance from the Petitioning Towns, renders the settlement of Estates under Administration expensive —

In Answer to which suggestions your Memorialists beg leave to Observe, That upon an enquirey into the proportion of Business done in the several Counties of Worchester, Middlesex, Essex &

Suffolk, it will be found that there are one third more Actions entered annually in the County of [**360.**] Worcester than in the County of Suffolk, & nearly as many in either of the Other Counties above mentioned. Wherefore your Memorialists conclude, that the Oppressive Attendance required of Parties, Witnesses & Jurors in the County of Suffolk, if any such therein) arises from some Other Cause than that of the Increase of Buisness, or the multiplication of Law suits, because the Court of Common Pleas in the other Counties above mentioned, do not usually continue their session for more than the space of one Week — If the Business of any County Court is unreasonably protracted it cannot be a Cause of dividing one County into severall but the Greviance ought to be redressed in such Other way as the Constitution has provided —

That by Law the Probate Courts is now made ambulatory & accordingly sets in different parts of the County by which the Inhabitants receive great ease or can have nothing further done for their benefit at present unless Counties should be reduced to very small & unimportant Dimensions or the Court holden in future nearer the Center of the County the mischeivous tendency of the One & the inconveniancy of the Other shall be presently pointed out —

[**361.**] The other reason offered Applies alike to every County in the Commonwealth, it would undoubtedly be convenient for the People in each part of the State to have Courts of Probate Register of Deeds & every other Office of Government nearer their own Dwellings respectively but as this is in its nature impossable to render the particular Circles of Jurisprudence as small as consists with the Safety & Dignity of the State at Large, is all that can be done with propriety & Wisdom —

The particular Counties of this Commonwealth originated rather from the Accidental settlement of the several parts of the State, that from any systym which regarded the future ease interest or convenience of the People & will therefore in the course of a few Years when the State shall be more generally covered with Inhabitants, undergo such a Change & receive such Alterations as will render their lines convenient & parmanent, & should one or more Counties be established at this period, it is very probable that the necessity of a final & equal regulation of Counties, may in a short time render the expence now to be borne Useless & Idle

Your Memorialists conceive that when a New regulation of Counties shall take place the prudence & Sagacity of a free [**362.**] & intelligent Peoples wisely regarding the Dignity & Energy of this Goverment will, never suffer their Counties to be rendered small and contemptable, for a Government in the Delegation of Power from the whole People to a few who hold the Magistratical Power Deminishes in proportion to the Multiplication of Magistrates & therefore there must be in nature a *Line* which if exceeded on one hand will lessen, the part & necessary weight of

Goverment two much to consist with the happiness of the People while an Error on the other may render Goverment Dangerious to that Interest it is intended to procure — Should a new County be established according to the Lemits preposed it would introduce a president for making many others without the State, the consequence — of which inevitably would be Multiplication of Officers & detracting from that Just Authority & Diginity of Office without which Civil Society can never be secure or happy —

Another Argument against this Project is that as so many Additional Officers as would be wanted must be commissioned by the Governour & Council it would thro' a weight into the supreme Executive which might Operate in creating an undue influance Should an Inclination for new Countes be encouraged & prevail, so many wise & [**363.**] able men would be employed to fill those places which are incompatable with a Seat in the Legislature that the Publick Councils would not possess that Wisdom & Ability which at this time is necessary to the Welfare of the People. And your Memorialists beg leave further to Add that making new Counties would produce a great number of Other Officers whose Business tho' not constitutionally incompatable with a Seat in the Legislature, yet renders them less needfull there, besides as the Legislature is the place from whence the Power of the Majestrates in most instances is derived it might be a Question whether there ever ought to be a considerable proportion of Men Cloath [ed] with Executive Authority holding Seats in the General Court —

It is true that the Town of Boston stands remote from the local Center of the County but it is well known that the Center of *Interest & Buisness* is more regarded by Men than The local Center of Districks. Hence while the interior Counties which have no Market Towns or places pecular to Commerce — fix the Seats of Justice near the middle of their Circumference the People Inhabiting the Sea Port Districts in this & every other County Attend the Business of Courts in the Metropolis of Trade, The conveniance of this is fully evinced by the consent & practice of Ages —

[**364.**] To burden the People at this time with a new Tax for Court Houses Goals &c — while the publick Debt rests so heavily on their Shoulders would be in the Opinion of your Memorialists discovering a taste for Inovation quite unbecoming A Country Circumstanced as this is —

For the beforegoing & other reasons that may be offered they pray that s^{d}. Petition may not be sustained —

Voted, that the aforegoing Report be taken into a fair Draught & Signed by the Town Clerk in behalf of the Town & then delivered the Gentlemen who Represent the Town in the General Court —

The Committee relative to a Corporation not being Able to report at this Meeting —

It was moved & Voted that when this Meeting is Adjourned it is to be Friday next 9 OClock beforenoon being the 4th. of June —

Voted, that Mr. Thos: Walley

Thos: Daws Esqr. Do: —
Colo. Joshua Davis
Capt: Henry Prentice

After some warm altercations it was moved and seconded, "that the sense of the Town be now taken, whether it is expedient that any alteration should be made in the present form of the Goverment of the Town — and the Question being accordingly put Passed in the Negative by a great Majority

It was then Moved and contesated for that the Meeting should be immediately dissolved — and the Meeting was accordingly dissolved

A Motion was made & the Question put. Viz^{t}. —. Whether the consideration of those Matters unfinished at the March Meeting which stood referred over to this Meeting be further referred to the Next Town Meeting — Passed in the Affirmative

The Committee Appointed to prepare an Answer to the Petition of thirteen Towns in this Commonwealth for repealing or altering the Act of the General Court for regulating the Market in Boston — Report as follows Viz^{t}. —

To the Hon^{ble} Senate & House of Representatives in General Court Assembled at Boston — January 1785 —

The Town of Boston having been favor'd through the medium of their Selectmen with a Copy of the Petition of the Towns of Roxbury, Braintree & Other Towns, respecting the Honourable Court either to repeal or alter a late Law relative to the Market in Boston and have also been notified to Appear before the next said Court to make Answer to said Petition [**382.**] if they see Cause, in consequence of which Notification the said Town of Boston by their Committee Viz^{t}: the Selectmen appear & beg leave to take notice of the Reasons given in the said Petition why the said Law should be repealed or altered —

In the first place the Petitioners say that *Considerable* Sums of Money have been demanded for the *Inconsiderable* priviledge of standing on the same "that is the Market ground" this they deem to be contrary to that freedom of appropriating their own Towns properity by their own consent & consequently unconstitutional and Oppressive —

In Answer to which we say that whatsoever Sums have been demanded, but a trifle has been paid even not sufficient to pay the daily expence of the Market, But that this Demand is contrary to the Intent of the Legislature, doth not appear, if we are to Judge by a fair and candid perusal of the Market Law, and to say that paying Money for a priviledge (as they own it to be in their Petition) is contrary to that freedom of *Appropriating* their own "properity by their own consent, & unconstitutional and "oppressive," is as we conceive contrary to common Sense, If they enjoy a *Priviledge* its fit they should pay for it, to procure them this *Priviledge* the Town have been at the [**383.**] Expence of near two Thousand Pounds in filling up the Docke and are annually at the expence of a Clerk to accomodate the Market Men & a Labourer, who *every Day* after the Market is over, clears away the Dung & rubish better to accomodate them, Their own Properity they dispose of as they please, & do what they will with their money when received & how this can be deem'd unconstitutional, or oppressive cannot be concived but by the Framers of said Petition

The next thing the Petitioners complain of is being restrained from standing more than half an "houre in any public place or Street, in Boston under "the penalty of two Shillings for every offence "which they concieve to be an abridgment of that Liberty which every good Citizen ought to enjoy," — All that need be said in answer to this is, that by the paragraph referred to instead of *Abridging* it is an enlargement of their liberty — before the Law, Teams, Carts, Trucks, Chaise &c Standing a less space of time in the Street, road or high way would be deem'd a common Nuisance & might be punish'd as such 'tis a Priviledge that no Inhabitant of this Commonwealth either in Boston or in any other Town is allowed. —

The Petitioners also complain of it as a hardship that *Common Street* is set a part as a market place for the sale of Hay, Wood &c — Instead of a greivance this is another Priviledge, there they

may stand all Day, without being liable to be presented [**384.**] for obstructing the road, as an Inhabitant of Boston might be. —

We have this further to say Viz^{t}: that the Law which they complain of doth not Compel them either to go into *Common Street* with their Lumber or the Market with their Provisions, it leaves them at free Liberty to pass and repass, thro' all the Streets in Boston so as they do not Obstruct the passage or make it inconvenient for other passangers thus it appears that their Blood & Treasure "has not in this respect been spent in vain —

We know of no Jealousy or Cause of Jealousy subsisting between Town & Country; We are one People, Brothers; our Interests are one; and to convince our Friends in the Country, especially those in the Petitiononing Towns, that we wish to live in perfect Harmony with them, we shall make no oppositions to a Motion for a Total repeal of this Act which they complain off however mistaken we think they have been in the construction of it. —

It was then moved and Voted, that the Town do accept of this Report, and that the s^{d}: Committee Viz^{t}. "The Gentelmen the Selectmen & the Hon^{ble}: Robert T. Payne Esq^{r}. M^{r}. Thomas Walley and Joseph Greenleaf Esq^{r}. be and hereby are instructed to lay the Same before the General Court as the Answer of the Town to the Petition aforesaid

Then the Meeting was dissolved

[**385.**] At a Meeting of the Freeholders & other Inhabitants of the Town of Boston duly qualified and legally warned in public Town Meeting Assembled at Faneuil Hall on Thursday the 10th Day of February Anno Domini 1785. 3. O'Clock P. M.

The Honble: Caleb Davis Esqr. — excused was chosen a Fire Ward for the Year ensuing

The Report of the Committee relative to the Market & Capt. Ballards Petition, read, whereupon moved and carried that, that part of the Report which relates to Monies received by Capt. Ballard, and Accounts to be settled, be referred to the Selectmen for Settlement —

Also Voted, that the further [412.] consideration of the latter part of said Report which relates to the Erecting Buildings &c — be referred to May Meeting — and that the same be inserted by the Selectmen in the Warrant that shall be issued for said Meeting —

The Article of the Warrant relative to the Neck, was read as also the Report of the Committee to take the same under consideration — was read and the Report having been considered — the Question was put — Whether the same shall be Accepted — Passed in the Affirmative — and said Report is as follows Vizt.

The Committee Appointed by the Town at their Annual Meeting 14th. Day of March last " to consider the request of a Number of the Inhabitants that some effectual Measures as well to prevent the Inroads of the Sea on each side of the Neck as for the Safety of Passengers passing or repassing the same" and to whom was recommended the Report of a Committee made on the same subject at a Town Meeting on the 14th. Day of September last they have Attended the Business & Report

That After mature consideration of the Report submitted to the Town by the [413.] Committee on the 14th Day of September they are of Opinion that the plan then reported involved in it

an Object of too great Magnitude to be carried into effect under the present straitened Finances of the Town & was calculated on two large a scale for Private Individuals to have engaged in; Your Committee therefore think it not Advisable at present that any part of the Report referred to should be Adopted But as the present exposed situation of the Neck Demands that some immediate Measures should be persued to check the Inroads of the Sea which prevails daly & distructive Advances must in a little time produce the most runious Effects they propose

"*First* that a Sea Wall shall be erected from the Southeast corner of the Fortification to run fourteen hundred feet to & on the out side of Hills Dam (so called) to be built of stone with a double Capstan to be at least 3½ feet at Bottom — 2½ feet at Top & to be bedded two feet and the Stone Work to be five feet high including the bedding this Wall to be Well backed & secured & to be kept in good repaire as a Barrier against the Sea forever — *Secondly* the Wall on the Northwest side of the Neck being in a very disjointed & tottering State, it is become exceeding necessary to have a range of Stronge Pickets 11 feet longe & well secured by being placed three feet in the Clay & at the distance of 18 Inches from the Wall, which [414.] Space should be filled in with Roxbury Chips or small stones — These Pickets ought to be five feet Above the Wall as it now stands all of the same heigth to be pointed & ribbarded near the Top. And to defrey the expence Attending these Two pieces of Work it is proposed that the Town shall grant in fee to such Person or Persons as will undertake & finish in a substantial manner these two Important Barriers, all the Land and Flatts lying on the Southeast side of the Neck extending 1400 feet from the Fortification to the end of the proposed Wall on that Side; As Also all the Flatts on the Northwest side included within the Wall now standing & a line to be run parrallel with said Wall at the distance of two hundred feet therefrom, Subject however to the Grantees & their Heirs & Assigns forever, hereafter keeping the said Barriers in good repair; as also preserving the Passage way on each side the Pavement in suitable Order for Travelling in the same manner that the Abutters on the publick Streets do in other parts of the Town — The Grant above is Also to reserve to the Town forever a Street between the Premisses of Eighty feet wide. — The Grantees are also to Covenant to each a Rale Fence on the Southeast side of the Above extent of 1400 feet [415.] as also the Picket work on the Northwest side, on or before the first day of November next for the security of Passangers and likewise to contract for the Building & compleating the Sea Wall by the first of Novr: 1786 — *Thirdly* That the safety of Travellers & the Inhabitants, as well as the preservation of Sixty Acres of Upland & Marsh belonging to the Town, make it exceeding necessary that the rest of the Land should be immediately inclosed by an Open Fence of Posts & two rails, similar to the one round the Common — And to effect this purpose your Committee think it for the Interest of the Town to lease the same for the Term of Twelve years to such

Person or Persons as will contract to raise such a Fence, keep the same in repair, & so leave the same at the expiration of said Term for the Use of the Town, & also engage to set out suitable Elm Trees at 50 feet distance on each side of the Neck the whole extent of the Town Land & from time to time replace them when they decay or are destroyed — This Bargain to be at the refusal of the Persons who shall undertake the Stone Wall & Picketing — *Fourthly* — It is become necessary that the sunking Pavement on the Center of the Isthmus should be [**416.**] raised two feet high for 450 feet extent that the Other parts of the Pavement should be repaired & that one Thousand Load at least of Gravil should be laid on the defective parts of the Cartway on the East Side of the Pavement — The Expence of this said Work the Committee compute to Amount to £500 — & to defrey which they recomend it to the consideration of the Town to dispose of the Land Annexed to & Adjoining the Fortification within on both sides — The sale of which they are of Opinion will raise the Sum wanted — The Committee recomend that the Selectmen be Authorized, or a Committee be Appointed to execute the Above Buisness on the best Terms & in the most expedious way possable & to make & execute proper Deeds to effect the purposes aforementioned. — The foregoing was unanimously Agreed &c
Boston 4th April 1785 Samuel Brick ℔ Order

To Honble: John Hancock Esqr. Honble: Samuel Allyne Otis Esqr: Honble: Caleb Davis Esqr: Thomas Daws Esqr: Samuel Brick Esqr. Honble: Benjamin Austin Esqr: Benjamin Hitchborn Esqr. —

Gentelmen.

It is not from any distrust either of your Zeal or Abilities that we have thought proper to give you our Instructions on some of the many important Objects which must arrest your Attention in the Approaching Assembly of the State; on the Other hand we are fully persuaded that no Exertions on your part will be wanting to promote the true Interest of this Town, as well as that of the Community at large, but at so important a period we wish to Afford you our suport and Assistance under the thorough conviction that nothing short of our, united Effects, can perfict or secure the Blessings of Peace & Independance —

During the Danger & Calamites of War we were led naturally to expect that the return of Peace would have brought with it Prosperity as well as Safety Depending on this, too much has been left to the uncertainty [**435.**] of Chance, where the Wisdom of the Laws or the Obligations of Treaty, might have been Applied with Advantage. — To this unfortunate Defect of System in the Public Conduct it has been owing, that the greatest part of our circulating Medium has been exchanged for British Luxuries, that our Trade has been so unequal, and unproductive, & that most of the means of remittance wether directe, or circuitous have been cloged by Alien Taxes, & Restrictions, or else

totally excluded in foreign Ports: And in Addition to this ruinous situation, we find the Agents and Factors of British Merchants Assidiously gleaning the Remains of our Money & thretining a Monopely of the whole Trade — Thus between the Artifice of Forreign Individuals, & the Policy of their Government are our Citizens impoverished & the Country most essentiallv injured —

If these were the Only Difficulties that Demanded your Attention, our Complaints would be less Urgent, but our Carrying Trade that great Nursary of Seamen and one of the Principle Sources of National Strength & Opulence is menaced with Annihilation; With ample Internal resources & place it on a respectable [**436.**] Footing. We have with the most passive Indeferance seen the Ships of Other Countrys but of the British in particular crowding our Ports with all the Advantages of our own, at the same time that the Navigation of these States is in their Harbours either restrained, or subjected to the Several Exactions.

As the Encouragement & Protection of our Fisheries are Objects of primary Concern, we are Alarmed at finding the Industrious & hardy Seamen of this Commonwealth decoyed into British service and contributing to errect a rival Establishment on the Ruin of our Wale Fishery —

We most earnestly wish to see the internal Trade of these Several States in the Union fixed and confirmed on principles of the most perfect equality by such Policy, one great Cause of Jealousy and Dissention will be removed; and it is under God on the Harmoney & Coincidence of the several parts of our Confederacy that the general Happiness and Security must depend —

In a Country where the real Wants of the Inhabitants may be generally supplied by their own Industry we are Anxious to turn the Attention of Government to the encouragement of Agriculture and to the present reduced and declining State of many of our [**437.**] Manufactures; the relief & Protection of which are Objects of the most extensive Utility

The State of Public Credit on every principal demands the Closest Application; When an Appropriated Revenue derived from the Commodities & Luxuries of other Countries might have preserved & perpetuated our National Faith, a total neglect of this Salutary expedient has already been productive of Injury & Dishonour to the Government & of Distress & Oppression to the Public Creditors; Policy as well as Justice then unite to demonstrate necesity of some permanent & National Establishment on this important Subject When thus engaged Gentelmen you cannot fail to recollect that as Economy in our private Expenditures is one of the Cardinal Virtues of a Republic, the Prevalence of Luxury & Dissipation should be watched throughout the Com-

monwealth & by progressive Excises be rendred tributary to the State —

But Gentelmen while we recomend these Circumstances to your Consideration, and while we contemplate some of the numerous Difficulties of our *present situation*, we look in vain for a [438.] Power in the Government Adequate to their removal; For it is Politically impossible, from our different views and local Attachments that there should be either concert or Decision on great National Questions, as the measures of any Single State will probably be opposed & defeated by those of its Neighbours till at length the Fabric of our Confederacy by internal Dissention, may be convulsed and subverted —

To correct these Evils and to Add Dignity & Efficiency to the Federal Government your Constituents are anxiously Solicitous to see the Congress invested with Power competent to our common necessities, to the Regulation of our Commerce and to the Adjustment and discharge of the Public Debt, and in order to this we enjoin upon you to exert your utmost influence with the Legislature to request the Suprem Executive, to open a Correspondence with the Supreme Executive of the Other States to concert the means of National Unanimity & exertion for it is from their Influence that we have derived our freedom, & it is to them alone that we must be indebted for the improvement and Extention of its Blessings —

William Tudor Esq^{r}.
was chosen by a Hand Vote, Moderator Pro. Tem.

The Committee Appointed by the Town at their last Meeting on the 10th of this present Month May "*to consider the Report of the Committee Appointed to Audit the Accompts of the Town Treasurer and to Report to the Town what is expedient to be done thereon*" have duly and Carefully Attended to that Business, & accordingly now Report

[**444.**] That they fully Approve of the perspicuous and Judicious Report of that Committee of Auditors, and conceive the same to be so important and interesting to the Town that material Advantage may result from having the same faithfully entered at large upon the Towns Books as a Memorial of the present Town Debts, and how the same has Arisen, and to which recourse may be had hereafter, if occasion should so require; wherefore your Committee beg leave to recomend, that the same may be ordered so to be entered —

That it Appears from such Report of those Auditors, that all the Town Collectors of the Taxes excepting *James Thompson* and *Thomas Bayley* are Deafulters, and that two of such Collectors are greatly in Arrears to the Town, one of them about £3000, the other above £1800, and that three Others of such Collectors are respectively Defaulters to the Town for several Sums none of which are so small as seven hundred pounds. —

That they Agree with the Auditors aforesaid that the Accounts with the Estate of the late John Ruddock Esqr. deceased, and with the several other Persons and Estates specified in the report of such your Auditor's the several ballances of which is stated in such their [**445.**] Report make up in the Aggregate the Sum of £959 ,, 5 ,, 2 — ought to be immediately settled and closed, the same in the Opinion of this Committee having been too long left Open —

That they submit to the Consideration of the Town, whether a Committee for settling and closing the same forthwith ought not be chosen and invested with full power for that purpose, and that the Treasurer be directed to sue for and recover the several Ballances which upon final settlement may Appear to be due to the Town, in case the same cannot without delay, be called in and received in some easier and less expensive mode, And that such Committee do duly report their proceedings therein to the Town at such time or times as the Town shall see fit to order and direct —

That the same Committee be also impowered to call upon John Rowe Esqr. and the Other members of the Committee Appointed for purchasing Grain in 1779. in 1780 — and in 1781 — and who are particularly, Named in such the report of your Auditors, and they Adjust and settle those Accounts likewise with all convenient

speed, and report their doings thereon also to the Town at such time or times as the Town shall order or Appoint for that purpose —

[446.] That as it Appears from the aforesaid Report of your Auditors of the Accounts of your Town Treasurer all your Collectors of Taxes (excepting James Thompson and Thomas Bayley) are greatly in Arrears, and that two of them in particular are defaulters for very Large Sums. It is submitted by your Committee whether the Town Treasurer should not be ordered immediatley to Isue Executions against all the Delequents to compel payment without delay of all arrears except the last Tax, for the collecting of which never, the less, only Six Months from this day shall be allowed, at the expiration of which Period, if the same be not then duly Accounted for to the Town Treasurer, that he be directed, to issue Executions against all such as then shall be found in default in order to ease the Inhabitants from paying two Taxes instead of one —

May it please your Excellency
The Inhabitants of the
Town of Boston legally Assembled in Faneuil [Hall] beg leave to express to your Excellency their Anxious concern for the Uneasiness that has arisen & to bear their United Testimoney against those illegal Steps which have been unfortunately & we are inclined to believe by some inconsiderately taken to prevent the due execution of the Laws within several of the Counties of this Goverment or Commonwealth Whatever may be the source of

these Commotions the Inhabitants of the Town are Clearley of Opinion that they are equally repugnant to the Constitution as they are distructive of the Peace & Order of Society — But as they feel themselves bound by every tie of Affection Interest & Religion to their Fellow Citizens throughout the State, wherever they are situated & have bled, & are willing again to bleed by their side in defence of Liberty & the Constitution, they depreciate every possible Misunderstanding among Friends, who are thus tenderly United; They rely therefore on the Wisdom Zeal & Patriotism of your Excellency & of the legislative Body, which they are happy in finding is so early to be convened that the true causes of these difficulties will be fully explored & Speedily removed, in order that Peace & Unanimity may be restored, & that the constitutional Securiety of the Lives, Liberties & Property [**527.**] of the People of this State may remaine unimpared — But while they thus most earnestly wish for the restoration of Harmony & that no mild & lenient Measures may be omitted to Accomplish so happy an Event, they Assure your Excellency of their unvaried determination, to cooperate in support of constitutional Govermant. In the firm belief that the true happiness of the People at Large is indissolubly connected with the unmolested Enjoyment of this inestimable Blessing & that Reverence & Submission to the Laws are our great Security, as well as the brightest Ornaments in the character of good Citizens —

To the Inhabitants of the Town
Friends & Fellow Citizens
The Inhabitants of the

Town of Boston can never remaine the unconserned Spectators of the distress and calamity of their Fellow Cityziens in any part of the Commonwealth your generous Friendship to us Evidenced as well by your Liberal donations as Otherwise, when we were peculiarly Suffering in the great Cause of our Country can never fail to warm our hearts with the highest Sentiments of Friendship for you; and we are perswaded that the Exertions we were then called to make for our own common Safety, have got a place in your kind remembrance [**528.**] Thus united as we conceive in Sentement, and Affection as well as in Interest with that cordiallity, which must and ever will Subsist amongst a Virtuous and enlightned People in a free *Country* we take the Liberty to Address you as those Commotions which have two widley Spread within the Commonwealth you will Suffer us to reason on this Occasion with a freedom which is the part of *sincere Friendship;* for we do Assure you that our Country can never feel a Political or civil evil, which we will not Chearfully bear a part of untill our Joint *Exertions* can obtain a *Constitutional Redress* We do not conceive it to be our duty to decide, whether the greviances mentioned by the Conventions in some of the Counties in the State really exist, or not; but we beg leave to Submit it, dispassionate, and candid decision, whether if they have a real Existance the Tumultious Methods Adopted by some Assemblies of

Men within the Goverment are proper Measures to Obtain a Redress. When we dissolved our conexion with the Empire of Britain, we then (politically speaking) had it in our election to remaine in a State of *Nature* or to ordain for ourselves such form of Goverment, as we chose, we were then in a State recognized by the first Article of the decleration of Rights free and equal, and nothing but our own voluntary consent, given in a Solemn Compact, could [**529.**] reduce us to a form of civil Goverment it required no great share of Wisdom however to discern, that unless we threw ourselves into that State, we could Neither defend ourselves against a foreign invasion or be preserved from the depredations of wicked and abandoned Men Amongst ourselves, therefore the People inhabiting the Territory called the Province of Massachusetts Bay by a *voluntary Affection* formed a Solem Compact, and in a *Solem* Appeal to the great Legislator of the universe, the whole People convenated with *each Citizen and Each Citezen* with the whole People to be governed by certain *known and* Established Laws for the *common* good & Security of all by the same solemn compact, the powers of Legislation, and the Authority for due Execution of the Laws were provided, and Established and we then did, and as yet do conceive that all was alone with such caution, and restrictions that no Man or body of Men, who shall Oppress or invade the rights of the smallest Individual, can express with impunity in the same compact, the People solemnly agreed, to support the Constitution for the space of fifteen years, and made Ample provision for the revision of it, at the end of that Period if it should then be thought necessary, their is no officer Either high or low within the Commonwealth [**530.**] who does not derive his whole Authority from the People, and who is not amenable to a proper & Adaquate tribunal for his Conduct — There are indeed evils which are common to the whole human Race, founded in the depravity an imperfections of Mankind and there are others the unhappy lot of some Countries arising from their situation, or the deep revolted habits of the people possessing them, both which are alike incapable of being cured by any Acts of Goverment, or exertions of human Power; but must be left to the Accedents and Changes of time for a remidy; should corrupt, and dissigning Men inflame the Spirits of the People, to demand of their *Rulers* the removal of such evils, their own reflections would sooner or later point them to their Mistake. If greviances have arisen in the Goverment, surely the Voice of the People may be taken

without flying to Arms: and no one can wish to dissolve our happy Constitution unless Another is substituted in its place; for a State of *Anarchy* is to be dreaded Above all other *Calamities*, *because theire is no evil which* it does not involve *but to us* as we shall take leave by and by to submit to your consideration consequences would flow from such a State, which would Cause each true American within the Commonwealth, ever to regret, that he had ever tasted the Sweets of evil freedom.

BOSTON TOWN RECORDS.

[EIGHTH BOOK.]

[**1.**] If the Citizens of the State Labor under Greivances which can be redressed by the Acts of the Legislature, we conceive that their Priviledges in this case, can never be enlarged, for the General Court are chosen Annually by the People & though in one Year, our Complaints are not Attended to, Yet we can in the next Election; place Men in power who will Answer our reasonable expectations, and we are constrained to say, that we are ignorant of the Time, when the Representatives of the People in this State, have not duly Attended to the Instructions of their Constituents, some Towns have Indeed, given instructions contrary to the Sentements of the Majority in the State and they therefore have not succeeded, but is not this Always the case, where, in society the Compact is, for the Minority to submit to the Majority? let the Majority be ever so much in the wrong. is there Any remedy within the reach of Nature, compatible with the Ideas of Society, and Goverment to say *the Majority shall not Govern*, is saying either, that we will reduce Ourselves to a State of Nature, reject the Ideas of civil Liberty, Establish a despotism, and be subject to the Sovereign Pleasure of one Man. We then beg You to consider whether *instructing Our Representatives* who serve us in the Legislature is not our great remedy against any ills we Suffer; and which are within the Compass of *human* power to redress. As we have taken leave to hint to you the Mode in which, *under the Goverment Established by our common consent*, we conceive all grievances ought to be remedied; we will now beg your Patience and Earnestly solicit your candor while we mention *some of the consequences*, which we think must flow from a Continuance of the present Commotions as an Introduction [**2.**] to this part of our Address, we will take a restrospective view of our *late situation*, and compare our *present*, with *that* in which we should have been, had not the noble Exertions of America, in defence of the *dearest rights* of *mankind* prevented it. — Taxed by great Britain, *unconstitutionally*, and *illegally*, the quantity demanded, was not the Object of the important stand then made, but the obvious intention, of

reducing to Absolute Slavery to a Prince on an Island, at three thousand Miles distance, the People of an whole Continent: demanded an Opposition *worthy* of the *blood* and *treasure* expended in it. our public *Assemblies* in Towns, *and elswhere*, were prohibited: and every precaution taken to deprive us, of the enjoyment even of *Social Pity*, and *joint complaint* a standing Army, *cruelly hostile* as well from their *deep rooted prejudices*, as the *sanguinary nature* of their Errand, supported at our *own* Expence, was employ'd, to prostitute us before each *haughty* Minion who chose to *insult* or *plunder* us, where then was the dignity of Man! and where, had they succeded, could the *Heaven* born ideas of Civil *freedom* be Entertained; even a Sigh for the *sweets* of *Liberty*, *would have been treason;* how *reverse* of *this* is our now *happy* situation! subjected to no Laws but such as are made by a Legislature of our *own election* Agreeably to the form of Goverment Established by our *own consent*, taxed by our own Representatives only, and controuled by no Authority but what is derived *from ourselves* While we contended for a Jewell of this *immense value*, still invaded on every side by the Scourging Arm of despotism; how *solemnly* did we Appeal to that Being, who sees the inmost recesses of our hearts, and how sacredly *did we pledge* [**3.**] *our Lives, and fortunes* to each other, and to our *Congress*, in the *glorious Contest* & shall we *now* Accomplish the wishes, and fulfill the *prediction* of our *Enemies*, in meanly receding from all our engagements. It is possible that any considerate man should suppose, that we as a people ought to, or can be Exempted from the calamities, and difficulties *incident* to human Life? were we not at all times aware that there is *no Medium* between a State of Goverment and a State of Nature, and that the latter at all times is a State of Warfare, where no man has a property in even the produce of his *own Labor* but only a precarious possession, maintained by force? or did any among us vainly believe, that we could enjoy the blessings of Goverment without an expence Attending it? as well might they Expect that the Earth would yield her fruits without tillage, and that Man could subsist without Labor & pain the *unalterable Laws* of *Nature* have fixed it, that the path to political, public or private happiness is directed *Alone through industry* and *frugality*, and we surely ought to submit to the common lot of humanity, without *repining* because it is one of the first *dictates* of *religion*, We are very sensible that the *habits* of *Luxury* contracted in the Late War; from the vast quantity of Goods imported, and the *too great profusion* of Money together with receiving, and giving unlimitted Credit have involved many families in distress, and have much diminished our Ability for paying those Just debts contracted in the day of our distress, As the price of our freedom, [**4.**] but shall we because Many of us are now distressed *Entail Ruin* upon our *Posterity*; let us lay aside the *destructive fashions* and *expensive superfluities* of the day, be *sober*, *temperate* and *industrious*, and by the blessings of

propitious Heaven we shall soon retrieve our circumstances, and Establish our public Credit. When we consider the Nature of the present commotions, it presents to us the very *important question* whether we shall *exist* as a Nation upon the Earth? for we are by no means ignorant, that Congress by our Consent, and to our *inexpressible Joy*, & *Satisfaction* procured from our Allies, A loan of Specie the Interest whereof, we are *Obliged* Annually to discharge: the Shutting up the Courts of *Justice* preventing the due Execution of the Laws and Arresting the Collection of Public Taxes *Anihilates* our Goverment, and loudly *proclaims* to our foreign Creditors, their *Total insecurity* should their Patience, and Lenity supported by a *hope* of our reclaiming ourselves, and correcting our Error, keep their Sword in the *Sheath*, yet we may have an *Enemy*, who will Embrace the *unlucky* Moment, should their ever be one, when he finds us without RESOURCES, without *Credit* and without an *Ally*, and deeply revenge himself, for the *disgrace* his Arms have sustained. Were there any among us so *depraved*, as to wish to return to the *Domination* of great Britain, they may easily perceive that the Nations of Europe, would never permit such a Union of Power; but divide us Amongst them. Our feelings would indeed on *such* an Occasion point us to a remedy perhaps less disgracefull; the Establishment of a [**5.**] *domestic*, instead of a *foreign* Despotism: supported by a *standing Army*, maintained by *our* own toil to awe us into such Submission that every idea of freedom, shall be finally and totally Eradicated. When we have seen the Patriot close his Eyes in death, with *gratitude*, and *rapture* committing his posterity to the *Arms* of *Liberty* shall we see others *Agonising* in their last moments, at yeilding their Children to the *chains* of Vassalage? forbid it that *Spirit* of freedom which has so long, annimated and *enlightened* America! *forbid it Heaven.* Finding that his Excellency the Governor, pursuant to the duties of his Office by Advice of Council, has called upon all the good People of the State to lend their Aid, in preventing the impending ruin we can do no less than to recognize Anew our Solemn Engagements to support the Goverment we have so lately, and deliberately Established and we feel ourselves Assured, that our *Numerous well Affected fellow Citizens* in every Town will shew their readiness to join in an Effort, so clearly pointed out, as the *first* duty in Society. — We are convinced that the present disturbances, arise from *British Emissaries* residing Among us, whose every wish is for our Overthrow and ruin, or from the Machinations, of Wicked, and unprincipled Men who seek their *own Emoluments to the destruction of their Country*, or from a Combination of both: but though many of our fellow Citizens, are deceived by them; and betrayed into a dangerous Mistake, yet we trust that they will on recollection, *Spurn* from their Councils such *base* and infamous Men; and that a careful *discrimination* will be made in every Town, between those who are and those who are not for the support of a Goverment

no *less Necessary*, to *the happiness*, than to the security, [6.] of the Lives Liberty, and properties of the people. Fellow Citizens. We now *intreat* you by the Mutual ties of friendship, and Affection by the *Sacred* compact which holds us in one Society — by the *blood* of our Brethren *Shed* to Obtain our *freedom* — by the *tender* regard we feel for our rising Offspring Claiming freedom from *our* hands as their Inheritance, by the *grant* of Heaven to use your endeavours that redress of greviances be sought for in, A *constitutional* and *Orderly way* only: and we pledge ourselves to join our Exertions with yours in *the same way*, to Obtain redress for any such as do really exist

The Report of the above Committee as laid before the Town by their Chairman William Thompson Esqr. and as amended & accepted in Town Meeting is as follows Vizt.

The Committee to whom was referred the propositions for reforming the present System of public Education in Boston, Report & offer the following Plan & Arrangment - - Vizt.

Propositions for reforming the present System of public Education in Boston.

1st. That that there be one School in which the rudiments of the latin & greek languages shall be taught, and Scholars fully qualified for the Universities. That all Candidates for admission into this School. shall be at least ten years of Age [128.] having been previously well instructed in English Grammar, that they shall continue it not longer than four years, and that they have liberty to attend the public Writing Schools at such hours as the Visiting Committee shall direct. —

3d. *Third*, That there be one Reading School at the South part of the Town, one at the Centre, one at the North part, that in these Schools the Children of both Sexes, be taught to spell

accent and read both prose & verse, and also be instructed in English Grammar & Composition. —

4. *Fourth* - - That the Children of both Sexes be admitted into the reading & writing Schools at the age of Seven Years, having previously received the Instructions usual at Womens School that they be allowed to continue in the reading & writing Schools until the Age of fourteen, the Boys attending the Year round; the Girls from the 20th. of April to the 20th. of October following — that they attend these Schools alternately at such times & subject to such changes as the Visiting Committee in consultation with the Masters, shall approve. —

5. *Fifth.* That the Committee be annually chosen by ballot to consist of twelve in addition to the Selectmen, whose business it shall be to Visit [**129.**] the Schools once in every Quarter, and as much oftener as they shall Judge proper with three of their number at least, to consult together in order to devise the best Methods for the Instruction & Government of the Schools and to communicate the result of their determinations to the Masters; to determine at what hours the Schools shall begin, and to appoint play Days in their Visitations, to enquire into the particular regulations of the Schools both in regard to Instruction & Discipline, and give such advice to the Masters as they shall think proper, to examine the Scholars in the particular branches which they are taught, and by all proper Methods to excite in them a laudable ambition to excel in a virtuous, amiable deportment and in every branch of useful knowledge. —

The Committee recommend the following Arrangment of the Schools, to the acceptance of the Town - - - - Vizt.

1st. That the School House in pleasant Street now occupied by Mr. Ticknor, be the South Reading School until a further provision be made by a new Building. —

2d. That the School House in West Street now occupied by Mr. Vinal, be the South Writing School.

The Committee further inform the Town that the Rent of a Building for a Reading School in the Centre of the Town and the charge of making some small alterations in the North Writing School house, will be the only extra expence necessarily incurred by this Plan & Arrangement, whilst the great & obvious advantages which may be derived from them to the Youth in general, and to the Female Sex in particular would abundantly compensate & Justify a far greater expence. —

[**133.**] The following Address of the Inhabitants of the Town of Boston, to the *President* of the United States of America was agreeable to a Vote of the Town at their late Meeting, this Day presented him by the Selectmen. — Viz^{t}.

Sir

We beg leave to express our Happiness in the Honor you confer upon us by a Visit to this Capital.

We are happy in the opportunity of again making our personal Acknowledgements to a Character, to which, on every Principle,

we are so deeply indebted, Every Motive of Esteem, Duty & Affection have conspired to form in our Minds the strongest Attachment that the freest People can feel to the most deserving Citizen. —

As Men we have long since considered you under God as the great & glorious Avenger of the violated Rights of Humanity — As Citizens we have observed with peculiar Satisfaction, that you have invariably respected those Liberties which you have so successfully defended. - - - And as Inhabitants of a great Commercial Town we attribute the Security we enjoy to the singular Merit & Success of those Measures in the Progress of the War, which You had the Honor to conduct. —

It cannot but afford you the highest Pleasure, when you compare our present situation with the signal Distresses to which we were exposed during the Period in which this Town was in the Possession of an exasperated Enemy. Indignant at the multiplied Restraints of hostile Domination, we [**134.**] sought an Asylum among our Friends & Connections in the Country, and cheerfully abandoned our Prosperity and Possessions in the Common Cause of America. That we were so soon happily reinstated, may be justly imputed to the Wisdom of those Arrangements, which compelled our Invaders, in their Retreat. to adopt a less destructive Policy than that which on other Occasions they so wantonly practised; In every trying Viscissitude we have remarked the conspicuous and unaffected Piety of your Heart & the Wisdom & Moderation of your Councils. —

We have seen you relinquish the Ease & Independence of private Fortune to lead in the untried Dangers of a War at the Risk of your Life & Reputation. With pleasure we have viewed you retiring in Victory & exhibiting a new Example of Patriotic Virtue to an admiring World: And we now feel a still higher Satisfaction, at your having once more Sacrificed the Sweets of Domestic Retirement in Obedience to the United Voice of your Countrymen. —

These, Sir, are the Sentiments & Reflections which naturally occur on an attentive Consideration of your past Conduct. To the future we look for those Virtues which adorn the Man and mark the wise and accomplished Legislator We anticipate from your Discernment the happy Union of Liberty & Law, Lenity & Vigor, Mercy & Justice The enlightened Policy of a Mind calm amidst the Influence of Power and uncorrupted by the fascinating Allurements of Avarice or Ambition. —

With these Impressions the Preservation of [**135.**] your Life through the varied Scenes in which you have been engaged Demands our grateful Acknowledgements to the Beneficent Disposer of Human Events.

It is one of the first Wishes of our Hearts that you may be as happy in your present elevated Station, as you have been Distinguished in your Military Character, and it is our fervent Prayer to the Almighty Ruler of the Universe that the Invisible

Hand which led the Citizens of America through the Dangers & Calamities of War, may still guard & protect you as an Ornament to Human Nature and a Blessing to your Country. —

The following is the Reply of the President of the United States to the aforegoing Address. Viz^{t}.

To the Inhabitants of the Town of Boston

Gentlemen

The obligations which your goodness has imposed upon me, demand my grateful and receive my sincere acknowledgements — Your esteem does me honor, and your Affection communicates the truest pleasure — by endeavoring to deserve, I will indulge the hope of retaining them. —

Over-rating my services, you have ascribed consequences to them, in which it would be injustice to deny a participation to the virtue and firmness of my worthy fellow Citizens of this respectable Town and Commonwealth. - - -

If the exercise of my military commission has contributed to vindicate the rights of humanity, and to secure the freedom & happiness of my Country, the purpose for which it was assumed has been completed [**136.**] and I am amply rewarded - - - If in the prosecution of my civil duties, I shall be so fortunate as to meet the wishes of my Fellow Citizens, and to promote the advantage of our common Interests, I shall not regret the Sacrifices, which you are pleased to mention in terms so obliging.

The numerous sensations of heartfelt satisfaction which a review of past scenes affords to my mind, in a comparison of the present happy hour, are far beyond my powers of utterance to express.

I rejoice with you, my fellow citizens in every circumstance that declares your prosperity - - and I do so, most cordially, because you have well deserved to be happy.

Your love of liberty, your respect for the laws, your habits of industry, and your practice of the moral & religious obligations are the strongest claims to national and individual happiness - - and they will I trust, be firmly & lastingly established.

Your wishes for my personal felicity impress a deep & affectionate gratitude - - - And your prayer to the Almighty of the Universe in my behalf calls forth my fervent supplication to that gracious and beneficent Being, for every blessing on your temporal pursuits, and for the perfection of your happiness hereafter. —

The Committee appointed to Consider the State of the Almshouse — Reported —

1st. That the building now occupied for the Almshouse is too near the Center of the Town, and not sufficiently Large to accommodate the Number of the poor present in the House — previous to the War — the number did not exceed. 150.. or 180.. in the Winter season. nor 100 .. or 120 .. in Summer — There are in the Present month of August between 270 .. & 280 .. in the ensuing Winter it is Probable there will be between 300 .. and 400. —

2d. There is no Ground in the Yard to Admit of any Additional buildings. —

3d. In all infirmaries, poor houses, and hospitals. it is considered an essential provision that separate and detached buildings should be appropriated for the reception and accommodation of such Persons, as are diseased, more especially those whose diseases are infectious — The Almshouse [183.] in Boston, is perhaps the only instance known where Persons of every description and disease are lodged under the same roof and in some instances in the same or Contiguous Apartments, by which means the sick are disturbed, by the Noise of the healthy, and the infirm rendered liable to the Vices and diseases of the diseased, and profligate. —

4th. The Present buildings are so Constructed, as not to Admit of a free Ventilation and they are so Old as to require constant repairs

5th The Yard is not Spacious enough to Admit of Sufficient walk for the Patients, while the Air is rendered Noxious, from the Number of Pitts and Vaults, Necessarily made near together, and too Near the Dwelling houses.

The Committee Therefore report as their opinion. that An article be inserted in the Warrant for the Town Meeting in October

[**206.**] Whereupon the Question was put — Vizt. Whether this report as now Amended be received And Accepted by the Town — Passed in the Affirmative

The Committee directed by the Town at A former Meeting of the Inhabitants to take into Consideration the expediency of providing A more Suitable Place for the reception and Convenience of the Poor — Have diligently Attended to this service together with A Proposition of A respectable Citizen upon the Same Subject beg Leave to Submit the following report. —

They are Unanimously of Opinion from the Number of Sick and others, who, of Late, have been provided for in the Almshouse, as well as from its Situation which your Committee Conceive is very ineligible, that it must be soon expedient if not indispensably requisite, to Procure other buildings for their better accommodation; but, your Committee think at the Same time, that the Completion of this business must be deferred to A future meeting, as the measures hitherto Proposed for this Purpose imply A Necessity for an Additional debt on the Town, Or an augmentation of Taxes, Neither of which your Committee can recommend. —

[**207.**] In Addition to these reasons for delay, they have thought proper to mention another circumstance to the Town which has had no little influence in deciding their Sentiments on this Point

The Inhabitants well know that all the standing Laws of the Government arising from that Spirit of humanity which has invariably directed our public proceedings on this Subject, all strangers — destitute of the means of Support have been hitherto Maintained at the Expence of the Commonwealth in the same manner with the Poor of the Towns, who by every tie of birth and consanguinity are entitled to our Aid and benevolence —

The propriety of this Practise has been Confirmed by immemorial usage in this Government. but an opinion having arisen that the Support of those who are distinguished as the Poor of the State. might be rendered Less expensive by A new arrangement, A Scheme has been Projected to have this Concern referred to the care of Individuals, which has been always Committed to Bodies Corporate in this Country from its earliest settlement to the present moment. This business on its examination has determined your Committee to Suggest to the Town [**208.**] The Propriety of having it Conducted in future on New Principles — in order to this they recommend the Choosing A Committee to be Specially impowered to Negotiate and Conclude A Contract with the Government for the Support of the Poor of the State for a given time — The final Adjustment of this business with the Government must have A great influence in directing the Sense of the Town On the Subject under their Present Consideration; As it must be Obvious that the Poor of the State are to be removed from this Town. The Necessity of Erecting New buildings would be less urgent than at Present — But if they are to be Continued by Virtue of A Contract with the Government This must operate as A Strong Motive to Carry the Plan of Erecting another House into a speedy Effect. — Perhaps A Sale of the Present Almshouse, Workhouse. & Granary together with such Donations as might be made by the opulent Citizens. would lessen the burthen Necessary to be Laid on the Town when this business shall require immediate Execution. —

The Committee ask leave to Sit again, That if Practicable, further measures may be devised [**209.**] To facilitate the accomplishment of this object and they beg leave to observe that they are fully impressed with a due sense of the purity of the motive which Originated the Proposal referred to in the former part of this report, Although they cannot recommend it to the Town for their acceptance —

all which is submitted,

Thomas Dawes ℔ ordr.

Your Committee beg Leave further to Report. that the Annual draught of the Overseers and Selectmen for Several Years past have been £7000 — And that the Present Year there

are Several New Peices of Pavements, And A New School house Petitioned for, which if Completed will make the Current expences exceed the former sum, And as the Taxes from the Collectors cannot be Collected for Sometime, and the Last year having Proved to the Town The Necessity of having money in the Treasury (as all the Towns expences by having Money to pay on demand are made at Twenty five per Cent less then they have heretofore been on Credit) Your Committee are therefore of opinion that the Town will make A Saving by raising A Tax of Ten thousand Pounds. which will enable the Town to pay their Notes, and Prevent not only Compound interest which they have long been subject to. but put them out of debt and enable them to go to Market, with ready money —

The Committee appointed to draw up instructions to the Gentlemen who represent this Town In General Court, relative to Admitting A Theatre in this Town—Report the following draught

To the Representatives of the Town of Boston—

Gentlemen, At A very full meeting of the Inhabitants of the Town of Boston the sense of your Constituents has been taken upon A Law of the Legislature Passed in the year 1750 Entitled an Act to Prevent Stage Plays, and other Theatrical Entertainments"—And After a lengthy and Deliberate Debate, They have Determined by A Very Large Majority. that the Existence of that Law in its Present unlimited form operates as an

undue restraint upon the liberty of the Citizen And as an infringement of his unalienable right.

They Consider the right to relax from the toils of Industry & the fatigues of Business by A resort to any *rational & innocent amusement*, as Constituting no inconsiderable part of the happiness of Civil Society and one of the essential [**240.**] blessings confirmed to them by A free constitution of Government —

A THEATRE where the Actions of great & Virtuous Men are represented Under every possible embellishment, which genius and eloquence can give will not only afford A rational and innocent amusement, but essentially Advance the interest of Public and Private virtue, will have A Tendency to Polish the Manners and habits of Society, to disseminate the Social affections. and to improve and refine the literary taste of our rising Republic — Your Constituents therefore, as well to Promote the Public benefits as to remove Every obstacle to the enjoyment of their Political rights, instruct and enjoyn you at the Next Session of the Legislature to move for and to use your utmost endeavor, until you effect A repeal of the Law alluded to. so far at least as respects the Town of Boston —

By Attending to the objects your Constituents have in View, you will readily Perceive — That they are as opposed to the licentious abuse of this Valuable Privilege, as to the Arbitrary and Unnecessary restraint with which it has been so long shackled —

They Therefore further direct you to endeavor that the Law of repeal may be so — constructed, that no dramatic Compositions shall be the subject of Theatrical exhibition until they have [**241.**] Obtained A Sanction from some Authority to be Appointed for that Purpose in order that none of an immoral impression may ever disgrace the American stage, and such only be presented to the view of the people as shall be calculated to improve their taste, to mend their hearts, and to Subserve the great and beneficial purposes of Public and Private Virtue — By order of the Committee

Voted, that the Representatives of the Town in General Court, be and hereby are *instructed*, to use their utmost endeavors that the Petition of Moses Fuller and others to the General Court for A Division of the County of Suffolk, should not Obtain And That they be Served with A Copy of this Vote, and Of said Petition and the Aforesaid remonstrance of the Town. — Sent —

The Remonstrance is as follows — Viz^{t}.

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts —

The Petition and Remonstrance of the Inhabitants of the Town of Boston —

Most humbly Represents —

That the said Inhabitants being favoured by your Hon^{rs} with a Copy of A Petition of several Persons in behalf of the Towns where unto they respectively belong for forming [**243.**] A New County by the Name of Union out of the County of Suffolk. And having duly Considered the Same. — They cannot consistently with the regard which they have for the People of said County as well as to the state at large, if they should refrain from remonstrating Against the Measure. They find that the first Claim for A Division of the County as Expressed in the Petition, Arises from delays in Tryals in the Courts and The great expences Consequent upon them, but it may be relied on, That those Actions which are merely Maritime, or Arises from the Principals of Commerce Incident to the Town of Boston are very few in comparison of those which Originate in Wrongs and Contracts Equaly Appertaining to the Nature of Business both in Town and Country. The Number of Tryals where both Parties are Inhabitants of Boston, bear but A Small Proportion to those where one or both Parties are Inhabitants of Other Towns in the County — If the County should be Divided there will still be Suits Commenced by the Inhabitants of the Town of Boston,

against the Inhabitants of the New County. and by the Latter against the former from Whence would result the same inconveniency as is now complained of that men in Town and County would have their Cases Tried by Jurors not Acquainted With the business they are called to decide upon, But very small Attention to the subject will shew that there is no weight in the Argument thus used in the Petition. Because [**244.**] the Law of the Land [is] alike to the Persons & Property of all the People in the Commonwealth, so far as the Same respects Legal Tryals. The Jurors now Called to decide upon matters of right in this County Are A Mixture of Town & Country men, but if the Town Should become A Separate County, and A difference In the feelings of Town and Countrymen does actually Exist, it will be hard upon our brethren in the Country to have no Jurors from the Country when they shall be called to Answer upon Suits in the Town, — Besides This, when A County is very small, And an Action which Attracts the Public Attention has to Pass thro' the Variety of Tryals to which it is liable Until Ended in A review, it is very difficult to procure An Unprejudiced and impartial Jury. The Town of Boston has ever had A high Sense of the Good understanding & ability of their brethren in the Country and would by all means, Unless where the Public interest absolutely requires it, Be willing to relinquish The Advantages derived from their Assistance in Matters of Legal Controversy, The Town of Boston have Attended to the Matters of complaint of their Brethren in the Towns said to be Petitioning, respecting the weight of Taxes Arising from County Charges, and they can by no means conceive that [**245.**] granting to the Towns mentioned in the Petition Exclusive County Priviliges would ease their burthens. The County Expences are always order'd and liquidated by the Court of Sessions, wherein their is A large Majority of Members from the Country Towns, the Expence of the Jail is no doubt very great upon the Towns mentioned in the Petition. as well as upon the Town of Boston, but the Towns in the Country part of the County ought to consider That in all great Towns and Cities, there are vagrant Strolling Persons, who are very frequently the Objects of such Criminal Prosecutions as will create an Expence. But The Towns Near the Metropolis have great Advantages from their vicinity with it. And they ought to bear A reasonable Part of the burthens Naturally arising from their Priviliges and Advantages — The length of the sessions of the Supreme Judicial Court. is no doubt the Source of much Expence. But A Method much more eligible, than that of A Division of the County may be Adopted, This together with the Expences of the Jail arises from the Number of Criminals which are held for and brought to Tryal at the Supreme Judicial Court — Considering the Advantages derived by the Inhabitants of the Towns Mentioned in the Petition from their Contiguity with the Town of Boston they ought to Unite with it in Procuring Such Measures as will tend Mutually to the relief of Town and Country in the Expences

Complained of [**246.**] As your Honors have under consideration A revision of the Judicial department in the Goverment, the Legislative will be naturally led to form such an Establishment as shall give the Town of Boston A Tribunal to try and Sentence, or Acquit such Persons as Shall be committed under charges of A Criminal nature not Capital and committed within the Town of Boston, in as Short A time after their Committment As shall be consistent with Justice. This will lessen the Expences of the County, have A tendency to prevent the Commission of Crimes, which are perpetrated under A hope of escaping from Punishment by delay of Trials, and take away all the colourable reasons Suggested in the Petition; what the many other reasons are which The Petitioners Suggest as existing, but do not mention The Town of Boston are unable to conceive of; had they been mentioned in the Petition it would have led to A discussion of their merits. but there are, as this Town believes many and very weighty reasons against the Measure. Amongst which are the following: That the Interest and happiness of the People depend much upon having the offices of their Municipality filled with men who are capable of executing the functions of them. and answering the just expectation of their constituents, but this can never be Assured where [**247.**] The Community is small without laying grevious burthens upon the People. In the instance under consideration A fair calculation will shew that the County Officers have but A Small support as — the County now stands. And A division will still lessen The reward for A Devotion to Public business The real expence of the People in going to the Proposed shire town will be to increase their Travel and by no means lessen their other expences, The great objects of Civil Goverment are the defence of the Society against Violence from External Enemies. & the Support of Distributive Justice among the Individuals of which it is composed; in the Latter a tryal by Jury is considered as being A very important and Valuable Municipal Institution, But where A County is small too great a Proportion of the People of it will be too much interested or Prejudiced in Causes demanding the Public attention to Preserve this institution in Purity, and tryals under such impressions will have A tendency to destroy the respectability of an Institution, upon which the Liberties of the People depend.

There are many other Counties in the Commonwealth which have as fair A Claim for A division as the County of Suffolk has. And Some of them greater and more weighty reasons to offer than can be given [**248.**] In this case, for though the shire Town in this County is not Central as to its local situation yet it is so as to the business done in the County — But there is one Consideration which the inhabitants of Boston conceive will have such weight that no smaller consideration of Convenience to A Part of the State will Preponderate against A Multiplication of Counties [which] will necessarily call for A Division of the Commonwealth into Several States; A Measure So replete with Mis-

chiefs and Misfortune, that every well wisher to his Country will oppose, As the States are divided they will grow weak, inefficient, and unimportant in the Union & Naturally Yield their Powers of Exertion to be Carried to the Seat of Federal Goverment and leave the States dependent upon the Powers of the Union for even the exercise of Corporate Municipal Authority.

Impressed with these Sentiments the Town of Boston have taken Liberty to appoint Agents to oppose the Division of the County of Suffolk before the General Court, and before all such branches and Comittees of it as shall have the subject of it under consideration and humbly hope That A Petition Soliciting A Measure which will have A Dangerous tendency against the importance, Security, & happiness of the people of the Whole Commonwealth may not obtain the Object for which [**249.**] it has been presented.

Then the Meeting was dissolved —

The following is the report of the Committee for Carrying the By Laws into Execution, which report was not accepted. Viz^t^. —

The Committee appointed to Consider the By Laws of the Town of Boston, And to report measures for carrying them into Execution ; have attended to the Subject of their Commission, and report as their Opinion, That the following are the Principal obstructions to the carrying of the By Laws into Effect ; and unless removed, must forever Embarrass them in their Operation : — 1^st^ An Apprehension existing in the minds of the Justices of the Peace residing in the Town of Boston, that they are interested, in the Penalties which may be recovered for A breach of the said By Laws. and therefore. they are disqualified from taking Cognizance and Jurisdiction of Complaints that may be brought before them in such Cases, whereby prosecutions for the breaches of the Said By Laws must be carried on at Some distance, and with great Additional trouble and Expence — 2^d^. The want of a Sufficient Pecuniary Compensation to the Inspectors of the Police to reward them for the Services which it was designed they should render and the want of A Proper responsibility and Penalties on the part of those officers for the Neglect of their Duty.

[**292.**] 3^dly^ An inconvenience arising from the Inspectors of the Police Applying to the Selectmen, previous to Commencing Prosecutions for breaches of the By Laws, which have occasioned delay in Cases, where there were no legal doubts of A Prosecution being sustained. 4^th^ The want of an Attorney for the Town, who should act when called on, in all prosecutions to be Commenced for breach of the By-Laws, and to whom the inspector of the Police and all other Officers of the Town Should apply, when Needful, for Advice and direction free of Expence —

The Committee are therefore of Opinion, That it will be Expedient for the Purpose of Carrying the said By Laws into Effect, That the Town should Pass the following Votes Viz^{t}.

Whereas doubts have Arisen in the Minds of the Justices of the Peace for the County of Suffolk, residing within the Town of Boston, of their Authority to Sustain and try Prosecutions for breaches of the By-Laws of the said Town, and other Laws appertaining to the Government of the same, in Cases where the Penalties may Accrue for The benefit of the inhabitants thereof; *Voted*, that application be made to the Legislature of the Commonwealth, Stating the Difficulties thence resulting in Carrying the Said By-Laws into Effect, Praying, if they think proper, that the Authority of such Justices may be declared to be Competent. to the Sustaining, Trying & determining of such Prosecutions; or direct such A mode of Process as they think Proper, in order that the By-Laws may be duly Executed, Agreeable to the Genius & Spirit of The present Constitution of the Town. And as it is of The greatest importance to the due Execution of our By Laws, That the inspectors of the Police, be men, not only of good moral [**293.**] Character, But of known Stability, firmness of mind and Laudable zeal for the good order of the Town—

Voted, That previous to the appointment of Such Officer or Officers of Police by the Selectmen, A Nomination list shall be hung up in the Selectmens room One month before the Choice is made, in order that every inhabitant of the Town, so inclining, may Enter the Name of one Candidate thereon; and the Selectmen are required to Elect by Ballot, from such nomination List, on the first wednesday of May Next, and afterwards on the Third wednesday of March Annually, one or more Persons for the aforesaid Office, — whose duty it shall be to Patrol The Town from time to time, and to Prosecute in behalf, and at the Expence of the Town (first Advising with The Town-Attorney if Necessary) before any Justice of the Peace, all breaches of the By-Laws that may come to his or their knowledge, either by his or their own Observation, or by the information of Others. And the officer, or Officers of the Police are hereby directed to keep an Office in or Near the Market Place, to be provided by the Selectmen, at which he or they, or Some Person acting under him or them, Shall daily Attend (Lords days or days set Aside for Public Worship Excepted) from the Hours of Eleven to One O'Clock, in order that the Inhabitants may with Greater facility give Notice to him or them of any Breaches of the By-Laws. The said Officer or Officers of Police are directed to make Weekly returns of his or their doings to the Selectmen. Voted that *an Attorney* be appointed by the Town by written Votes at the *March* meeting [**294.**] Annually, who shall be empowered to appear before any Court in all Prosecutions for a breach of the By-Laws when Necessary. Also to Commence and Prosecute under the direc-

tion of the Selectmen in any Court of Law, any Suit or Action, in behalf of the Town, and to defend any Suit or Action Commenced Against the Town. The Officer or Officers of the Police, and all other officers of The town shall have A right to the opinion and advice of the said Town-Attorney upon any Legal question, relative to the Execution of their respective offices, or to any Prosecutions for the breach of the said By-Laws, free of all Expence —

Voted That The Town-Attorney receive an Adequate Compensation for his Services, by an allowance to be granted him by the town in March meeting annually.

And the more effectually to enable the officer or officers of Police to pay due attention to the duties of his or their office:
Voted, — As the Sense of the Town, that the Selectmen make ample and liberal allowance to the officer or officers of Police, as a compensation for his or their services — to be paid quarterly. The said officer or officers of Police to take an Oath, and give bonds for the faithful discharge of his or their Duty.

Voted — that the Officer or Officers of Police, and Town Attorney, from time to time as they may Discover Any Additions to, or any Amendments in the By-Laws to be necessary (in their opinion) for the better Government of The Town, shall Lay the same before the Selectmen, who if they see cause, shall publish the Same in two Several News papers for the more deliberate consideration of the inhabitants, in order that the Town may conduct [**295.**] Thereon at their Annual meetings in *March* or *May*, as to them shall appear proper; Providing always that such Proposed Additions or amendments be published at Least Seven days Previous to Such Meetings —

Voted — That all Officers of the Town Elected by The Selectmen, Shall in future be Chosen by them by Written Votes.
Also that application be made to the Legislature, That it may be the duty of the Selectmen, and that they be empowered To Remove from Office, any Officer appointed by The Town, Or the said Selectmen, who shall be Convicted by Two Credible Witnesses of Fraud or Misdemeanors in his Office, in Any Court of Law, and another be Appointed in his Stead — saving always the right of appeal, Agreeable to the Laws of the Commonwealth. And whereas the mode Adopted for disposing of the Office of Hay-weigher At Auction has not Proved A beneficial Measure to the Town. —

Voted. That the Hay-weigher be hereafter Appointed by the Selectmen, and the said Hay-weigher is Directed to lay before them Quarterly, An Account under Oath, of the quantity of Hay weighed, and the Money received by him in that Office, and the

Selectmen are empowered to allow him the Sum of £. [blank] ℔r. Annum for his Services, he Producing A receipt that he has paid the residue of the money so received by him into the Town Treasury. — And whereas The Town at a Late meeting did direct the Selectmen to Erect A Number of Additional Stalls in Faneuil Hall Market, agreeable to A Plan Laid before the Town [**296.**] Which will render it inconvenient to dispose of said Market by Auction the Ensuing Year, —

Therefore, *Voted* That A Clerk of said Market be appointed by the Town the Next year, and that he be directed to lay before the Selectmen upon Oath, the money received in that Office; and the Selectmen are empowered to Allow him The Sum of £ [blank] for his services, he producing A Receipt in Like manner as the Hay-weigher.

Voted. That the General account of receipts and Expenditures of all Public money to be read in open Town Meeting in *March* Annualy.

And Whereas great expenses Yearly Accrue to the Town by the heavy Loads of Manure which are Carried through The Town, to the great Damage of the Streets and Highways:

Voted That application be made to the Legislature to empower the Town to make such Regulations as to prevent in future such damages to the Streets and Highways, Particularly to prohibit a greater Load then one *Ton* weight. of such Manure being Carried Through the Town, by any Person or Persons whatever.

And Whereas from the Late deranged State of the Town, in Execution of the By-Laws, many Evils have Arisen by the Practice of Forestalling in our Markets: — Unruly driving of Horses within the Town: — using unseal'd. weights and Measures in the the Market: — Impositions in the Sale of Fire-wood: — and Excessive Weight carried on Trucks and Carts: —

Voted — That it be recommended, and it is hereby recommended [**297.**] To the Inhabitants, to give information to the Inspector or Inspectors of Police, of all Persons who shall Continue in Such Practices, that they may be prosecuted agreeable to the By-Laws Of the Town.

And it is further Recommended, That each Inhabitant would Exert himself to put into Execution a Law of this Commonwealth for Preventing Persons obtruding themselves on any Particular Town, by giving *Information* to the Selectmen of the *residence* of such Persons, that they may be duly warned out of the Town, Whereby a great Expence in the Maintenance of the poor would be saved, and our Town Taxes greatly Lessened.

The above Committee Soon reported As follows — Viz^{t}.

To The Honorable Senate and Honorable House of Representatives in General Court Assembled January 1793. —

The Inhabitants of the Town of BOSTON in Town — Meeting Assembled, take Leave respectfully to remonstrate — That they Consider the Law [**323.**] Prohibiting Stage Plays, Interludes. and other Theatrical Entertainments, made Antecedent to the Establishment of our Present free and happy form of Government. as *unconstitutional*, *inexpedient* and *absurd: Unconstitutional*, Because among the Natural and *Unalienable* rights of the PEOPLE recognized in the first Article of their declaration of Rights, is that of Seeking and obtaining their own happiness — And in the 2^{d}. Section of the 5th. Chapter of the Constitution, they find it to be the *duty* of the Legislature "to Cherish the Interests of Literature, to Countenance & inculcate the Principles of Humanity and General benevolence, Charity, Sincerity, Good Humour, and all Social Affections and Generous Sentiments among the People." If Therefore There be any Dramatic Performances already Written, or if any can be Written, The Exhibition of which may have A tendency to make men happy, to Encourage Literature, and to inculcate the Social Virtues, *it is the right of the People* to Enjoy them, And the *Duty* of the Legislature to Secure to them the Excercise of this right. and, of Course, this Law, which in its Prohibition makes no distinction in the Nature of the Performance is Repugnant to both. They also Consider this Statute as an Indirect Attack on the *Liberty of the Press*. for if [**324.**] the Right to Think, write and Print feeely be secured to the Citizen by this Article, to restrain other Citizens from reading, and repeating, or Procuring Others to read and repeat for them What is thus Printed, is A Political Solecism.

Your Memorialist, however, would not be understood, to determine how far the Doctrine of Libels ag^{t}. Goverment, Individuals, or General Decency, and Morals, are exceptions to the 16th. Article of the Declaration of Rights; but thus much they can Confidently Say, That the Existence of the Law in Question is *Inexpedient* to these Purposes, Because if any thing Libellous, indecent or immoral Should be exhibited on the Stage, the Common Law of the Country, and the good and Wholesome Statutes of the Commonwealth, are as fully Competent to their Suppression or Punishment, there, as in any other place. — The *Absurdity* of this Statute is too Conspicuous to Pass unnoticed. One of the Objects in making this Law, as recited in the Preamble, is the Suppression of Immorality, and yet in the enacting clause it is lawful to exhibit any Dramatic peice, however Politicaly, or Morally bad in its tendency, Provided not more then Twenty [**325.**] Persons are Present; but at any Larger number, however excellent and Moral the Sentiments of the Performance may be, the illegality and, according to the Logic of this Statute the *Immorality*, commences

We are at a Loss to know by what rule in Ethics an action is Constituted morally right or wrong by the number of the agents concerned.

Your memorialists cannot but observe, that all the Public Amusements, which are at present permitted, are Calculated exclusively for, and confined to the Gratification of the Rich, while theatrical Entertainments would Admit an indiscriminate Participation to all ranks in Society. And we apprehend it is for this Reason, that in all free States, since the Republic of Athens the PEOPLE have considered the amusements of the *Drama* peculiarly their own; and even in Monarchical Governments, where the Monarch is not Absolutely *Despotic* the hand of Power has not been able to Suppress them.

For these reasons, the Inhabitants of your Capital respectfully request the Legislature to take this Exceptionable Law into their serious Consideration, and, in repealing it, leave the Citizen at Liberty, by a resort to an Innocent & rational amusement, to seek and Promote his own happiness and, as in Duty bound, shall Ever Pray &c —

John Lucas Pr. order

[326.] The aforegoing remonstrance having been read, The Same was accepted almost Unanimously —

The Aforegoing Committee also reported the following set of instructions which were also Accepted with A Like Majority — Viz^{t}.

First, RESOLVED — That our representatives be and they hereby are instructed, to renew their Exertions in the next Session of the Legislature, to effect a Repeal of the Law, which prohibits Theatrical Exhibitions within the Commonwealth, at least so far as respects the Town of *Boston*, or any other Town that may petition the Legislature for that purpose. —

Second, Resolved, that we shall consider counter-petitions, or any other methods, which A minority of the Inhabitants may adopt to defeat the Wishes of the Town, as irregular and unkind. —

Third, Resolved, That, the thanks of the Town be given to our Representatives, who by their late Efforts, Endeavored to procure a repeal of the Law in question; and that Thomas Crafts Esq^{r}. Leonard Jarvis Esq^{r}., M^{r}. Joseph Russell, John Lucas Esq^{r}., Perez Morton, Esq^{r}. M^{r}. John Quincy Adams, Paul Revere Esq., M^{r}. Edward Tuckerman, Samuel Bradford Esq^{r}., M^{r}. Jn^{o}. Brazer [327.] Jabez Hatch Esq^{r}., M^{r}. William Little, Samuel Brown Esq^{r}., Abiel Smith Esq^{r}., Henry Jackson Esq^{r}., Samuel Cooper Esq^{r}., M^{r}. Harrison G. Otis, William Powell Esq^{r}., Joseph Blake Jun^{r}., M^{r}. John Barrett and M^{r}. William Deblois, be a Committee to co-operate with them in such measures, as may be Thought expedient, to give effect to the Petition and remonstrance, which the Town will Present to the Legislature on this Subject.

Fourth. Resolved, That the respect Justly due to the sentiments of our fellow Citizens must operate as an indispensible Obligation to explain our Sense of the Nature and Tendency of the Law against Dramatic Entertainments, as well as the Ideas of the views and Principles which govern the Inhabitants on this occasion; and we should be unhappy to conceive that an opinion could prevail of our Abhorrence of Vice, or of our Love of Virtue, being diminished, when we venture to assert, that the Law under Consideration is neither consonant to the Spirit of Liberty, nor agreeable to the Liberal Principles, upon which our happy Constitution of Government is established; A Constitution which Scarcely admits of general restraints upon the Natural rights of the Citizen [**328.**] to prevent partial abuses or imaginary evils in the exercise of them; and it is no less for this reason than from the high opinion we have uniformly cherished of the manners and virtue of our Fellow-Citizens, That we have the fullest persuasion, that the Penal Statutes of the Government, and that Just detestation of Vice and immorality of every kind, which both reason and Religion inculcate, will be found amply Sufficient for the invaluable Objects they are intended to secure, without the equivocal aid of Prohibitory Regulations, founded in an impolitic jealousy of the Views and dispositions of the *People*, and unwarranted either by the Voice of Reason, or the Dictates of experience —

Fifth. Resolved, That the aforesaid Committee be authorized and desired to wait upon his Excellency, the Governor, with a Copy of these Resolutions, and present to him, in the name of the Inhabitants of the Town the following Address;

May it Please your Excellency —

Your fellow Citizens, the Inhabitants of the Town of Boston, have determined to Solicit [**329.**] the Legislature, at their Next Session, for a repeal of the Law, which Prohibits Theatrical Entertainments within the Commonwealth; and they have Thought proper to request your Excellencys aid on this occasion as they cannot conceive, from your Enlightened opposition to every encroachment on the Sacred Limits of the Constitution, that you would decline to Afford every proper support to an application, which at once contemplates. the establishment of an elegant and rational amusement, — and the repeal of a compulsory Statute, formed in violation, not only of those liberal maxims which Your Excellency's Administration has hitherto vindicated and confirmed, but of that Confidence In the virtue and discretion of the *People* which You have uniformly expressed and inculcated —

In Compliance with the above Vote. The Town Treasurer having obtained the foregoing List [**366.**] in further compliance with the above vote of the Committee, waited on the respective Gentlemen therein Named, and informed them of the business whereto he was appointed, Observing to them Individually the unhappy situation of the Treasury, being totally Exhausted of money, and the only Source Left of A Supply was from the Taxes outstanding, of how much Importance it would be to the Town by Discharging their Tax bills — That if they felt themselves Overburdened with the weight of their Tax, It would be the wish of the Committee That they should be relieved, and that if they would name any Particular Sum as A reasonable Abatement, The Committee would report to the Town, and Urge A Compliance with their Wishes, by passing A Vote Authorizing the Assessors to make such abatements as would be most conducive to the Interest and Safety Of the Town —

The Answers the Treasurer, upon the Applications as above received were as follows — Viz^{t}.

M^{r}. William Phillips Jun^{r}. said he had paid his Taxes with Chearfulness. That he was willing to Pay A reasonable Tax, but the Tax of 1791 Assessed on him was Cruel, and that he had Never denied Payment, but Expected an abatement, but did not Name any Sum, — M^{r}. Theodore Lyman mentioned as the ground of his not [**367.**] paying his Tax, that it was unjustly Assessed on him in his Opinion, and that he had reported his Property to the Assessors 1790, and in Consequence thereof, that he was Assessed in that Year £24 — That in 1791, Although he had made Very Little Addition thereto, he was Assessed £120 ,, 18 ,, 5 Which he Considered unreasonable, That he had Often applied to the Assessors for relief but Could obtain but A Trifling Abatement, —

M^{r}. John Codman said he thought himself greatly Over taxed for the Year 1791. That if the Assessors Would take off £25 — from that Tax, he would pay the Ballance immediately, Otherwise he would not pay the Tax Unless he was Obliged to.

Mr. Samuel Breck Jun^{r}. informed, that he had Sometime Since received Letters from his Father Not to pay his Tax, but that he had Very Lately received Letters from him to Pay his Taxes for 1791 & 1792, Provided the Assessors would take off 15 $\mathfrak{P}^{r}$. Cent —

William Phillips Sen^{r}. said he had no proposition to make, That he had no favour to ask of the Town, That he thought himself cruelly treated, That if the Collectors insisted on his Paying his Tax as it now stood, he should Comply on his Signing A certain receipt, the form of which he had given Lately to the

Collector, That if the Committee should [**368.**] Report to the Town giving Authority to the Assessors to make any abatements on his Tax, he would Consider them but said at the same time he did not feel himself at all Obliged for the abatement already made —

M^r^. Joseph Barrell said he should not Pay a farthing more than what could be recovered by Law of Either 1791 or 1792. And Looked on the abatement made him by the Assessors to be an Insult — The above being the Names of all the Persons who had refused Payment of Taxes, by the returnes of the Several Collectors, and the facts Stated aboue, are the reasons and Grounds they gave for non Payment, which is most respectfully Submitted to the Committee for their Consideration

Joseph Russell
Sub. Committee to the General Committee —

The aboue report being refered to the General Committee at their Adjournment on Thursday the 30^th^ of May Ins^t^. was then and there unanimously Accepted —

Whereupon, it was resolved, That the Collectors be Impowered and directed forthwith to distrain upon the Persons thus refusing to discharge their Tax bills and That the Town will indemnify the Collectors from any Damages that may Arise from such distreining and Collections, All which is most respectfully submitted

Benjamin Austin Jun^r^ ℔^r^. order —

The Aforegoing report having been Considered the question was put Viz^t^. whether it shall be accepted — Passed in the Affirmative —

[**369.**] The Committee relative to Excise Laws on Carriages and reported — Whereupon, Voted, That the representatives of the Town of Boston be and they are hereby Instructed to use their Influence at the Present Session of the General Court, to have the Excise Laws on Wheel Carriages repealed or so Modified that the revenue arising therefrom be in future appropriated to repairing the Streets or high ways of the Towns in which they are Collected —

The Committee appointed on the application of the Proprietors of the West Boston Bridge for repairs of the High ways leading from said Bridge into this Town beg leave to report —

That they have Attended the Service and are of Opinion That the road leading from said bridge As far as Carnes buildings so called be laid out Fiftey feet wide. That the Same be repaired by raising the Road and grading the Same as far as Said Buildings. That the Hill from Temple Street to Said buildings be

lowered by Ploughing the same So as to make an Easy descent to the bridge, That there be A Paved Gutter of Nine feet wide from the Top of the Hill to the House called Simonds House

By an Estimate of the Expence that will Attend Compleating the aboue it is computed [**370.**] That the Sum of Eight hundred & forty seven pounds, Ten Shillings will be Necessary — your Committee further report That the Sum of Two hundred pounds be paid toward defraying the Same, upon the works being Completed to the Satisfaction of the Town, or any Committee they may appoint for that purpose — Ezekiel Price Chairman Pr. order —

The Aforegoing Report having been read and Considered The Question was Put — Vizt. Whether the Same shall be accepted — Passed in the Affirmative — And the Same Committee are to carry The report into Execution

£4100

The Committee are of opinion that these Estates had better be sold at Auction, and the money appropriated for the purpose of taking up the notes, given by the Committee for the purchase money, to the late Governour Hancock's Heirs.

Joseph Russell Junr. ꝑ ordr. order.

The aforegoing report having been read, and considered, the question was put, viz., whether the same shall be accepted,— passed in the affirmative. It was then Voted that the Selectmen be appointed agents to sell at public Auction (upon such terms and conditions as they may deem most beneficial to the town) the Estate described, in the foregoing report, and that the proceeds thereof be in the first instance, appropriated to the sole purpose of discharging the debt contracted for the purchase of the Governours pasture, so called, and the residue paid into the town treasury.

And said agents or a major part of them are hereby authoriz'd to make and execute good and sufficient conveyances of the premises to the purchasers, in the name of the Inhabitants.

The Committee appointed "To consider what measures are proper to be taken for the better accommodation of the Poor, by erecting new buildings or otherwise" — having considered the subject at large, ask leave to report as follows, viz.

1st. That [it] is highly expedient to have the poor and sick Inhabitants usually provided for in the present Alms [**475.**] house, and work house, better accommodated; and that to effect, this desirable object, it is indispensably necessary, that an entire new set of Buildings should be erected in some suitable place to be approved of by the Town. —

2nd. The Committee find that a lot of ground suitable for the purpose can be had at West Boston, on the north side of Leverett street, commonly called Barton's point. —

3d. In order to raise the money to purchase a sufficient quantity of Land in this place, the Committee are of opinion, that it is expedient for the town to sell as many house lots in their Land opposite the mall, and near Greenleafs corner as will effect the purchase; There will after this remain a sufficiency of Land for the School house, and Hay market. —

4th. It is further the opinion of the Committee, that the monies raised by the sale of all the Land now occupied for the Alms house, Work house, and Granary, may prove sufficient to erect as many buildings, as are at present indispensably necessary; should they however prove insufficient, the township of Eastern Lands, the property of the town, will make good the deficiency without burthening the Inhabitants with a tax. —

5th. The Committee propose that the building, commonly called the Granary, be taken down, and placed in the lot called Fosters pasture, and continue to be the town's property; in the same place may be accommodated the Gun house. —

6th. As it is impossible to ascertain the expence of erecting the new buildings on the one hand, and on the other, what the

land will sell for, where the Alms house &c, now stand, and as it is highly probable that the town may not be able to receive their payment at such times, as to accommodate their necessary expenditures, the committee respectfully recommend to the town to appoint agents with plenary powers, to purchase the Land before mentioned, at Bartons point, to erect thereon a plain but commodious set of Buildings for the accommodation of the sick, and poor Inhabitants, on a plan to be approved of by the Selectmen, or such other persons as the town shall appoint. — that their [**476.**] Committee be authoriz'd to sell a sufficient number of House lots, opposite the mall as aforementioned, and also to sell all the Land where the Alms house, Work house and Granary now stand, in such lots, at such time and in such manner, as shall best promote the interest of the town, provided however, and it shall be a condition of the sale of this last mentioned Land, that the buildings to be erected thereon shall be constructed of Brick, covered with tile or slate, and shall be regular and uniform. — That their Committee be also impowered to sell a part or the whole of the Eastern Townsship if necessary. — And to anticipate the payment of any monies due from the sales here mentioned, by borrowing in the name of the town such sums as they may from time to time, judge necessary. —

All which is submitted.

Four °Clock P. M. met according to adjournment. —

The Committee appointed to take into consideration the petition of W^m. Darracott and Jon^a. Loring, Housewrights, employed in Building the North School have attended that service, and ask leave to report the following — Tho^s. Dawes ℔^r. order. — The Committee have examined the several accounts and vouchers exhibited by the petitioner, for building the North School House, and find that the sum of two hundred and thirty pounds, being the amount of the contract with them, have not been but little more than adequate for the purchasing the materials, and as the workmanship is well executed it is their opinion that the Town allow and pay them, out of the next Town tax, the sum of one hundred pounds as a full compensation for the aforesaid Buildings agreeable to the prayer of their Petition.

The aforegoing report having been considered the [**479.**] Question was put viz. whether the same shall be accepted — passed in the affirmative —

The aforegoing report having been considered, it was Voted, that the same be accepted. —

Voted, That the sum of Twelve thousand pounds be raised by a tax to be assessed on the Polls and Estates of the Inhabitants of the Town, to defray the expences of the current Year.

Voted, That the sum of Two hundred pounds be allowed and paid to Joseph Russell for his services as Town Treasurer the present year, the same to be paid him in quarterly payments as it shall become due & to commence the first of March last. —

Voted, That the sum of one hundred and eighty pounds be allowed and paid unto Josiah Waters, for his services as Officer of the Police, the present year, to be paid him quarterly as it shall become due. —

The Committee appointed to take into consideration the probable advantages and disadvantages of the preparing or new erecting the Dam, on the East side the neck, and the probable expence it may occasion, having attended that Business, report as their opinion that it will be most for the benefit of the Town, that a new Dike should be made, according to the modern plan, as the present Dam is in so ruinous and decayed a state as to render a complete repair almost as expensive as a new one, and at the same time will not fully answer the purposes intended, and expected. — The time for which it is now leased will expire the 4th. April. 1797.

The quantity of Land on this side the neck exclusive of salt marsh, without the Dam, is nearly 50 acres; should we be successful in keeping out the salt water, & we see nothing to prevent it, calculating upon the experience of individuals who have had Land in similar situations, the probable profit to the town will be 500 Dollrs. annually, while from the best inquiries and calculations the expence will not exceed £1000, — if our calculations are just this will yield us 15 ℔ Cent, for our money, we can conceive no probable disadvantage that can arise to the Town, from this measure, unless the expence at this particular time should be thought so, in addition to the pecuniary advantage which we presume the town will experience, we think it no small one, that the Eye will be relieved from the view of a barren waste, by a beautiful & pleasing verdure: — and should the Town in a future day think proper to sell the same, we presume the value will be [**483.**] enhanced much beyond the expence. By order

Monday the 13th. day of July 10 °Clock A. M. met according to adjournment.

[**486.**] On a motion of Dr. Jarvis, Chairman of the Committee of 15th. — The pending Treaty was distinctly read in Town meeting by the Moderator. —

The Committee then Reported as follows, viz.

A Pamphlet printed at Philadelphia under the signature of S. T. Mason Esqr. one of the Senators of the United States, from the Commonwealth of Virginia, and purporting to be a genuine Copy of a Treaty of Amity, Commerce, and Navigation, entered into at London, on the 19th. day of November last, between Lord Grenville on the part of his Britannick Majesty, and John Jay Esqr. on the part of the United States, was read and duly considered, and thereupon it was,

Resolved, As the sense of the Inhabitants of this Town, that the aforesaid *Instrument*, if Ratified, will be highly Injurious to the commercial interests of the United States, derogatory to their National Honour, and Independence, and may be dangerous to the Peace & Happiness of their Citizens. The reasons which have induced this opinion are as follows, vizt.

1st. Because, This Compact professes to have no referrence to the Merits of the Complaints and pretensions of the contracting parties; but in reality the complaints and pretensions of Great Britain are *fully* provided for, while a part only of those of the United states have been brought into Consideration. —

2dly. Because, in the stipulation which restores *our* Posts on the Western Frontier, no provision is made to indemnify the United states for the Commercial, and other Losses they have sustained, and the heavy expences to which they have been subjected in consequence of being kept out of possession, for twelve Years in direct violation of the Treaty of Peace. —

3dly. Because, no indemnification is proposed to be made to the Citizens of the United States, for property [**487.**] taken from them at the close of the War, the restitution of which is provided for in the same Treaty.

4thly. Because, the Capture of Vessels and property of Citizens of the United States during the present War, made under the Authority of the Government of Great Britain, is a National Concern, and claims arising from such Captures ought not to have been submitted to the decision of their admiralty Courts as the United States are thereby precluded from having a voice in the final determination of such cases. — Because, the Indemnification proposed, is to be sought by a Process tedious and expensive, in which justice may be *delayed*, to an unreasonable time, and eventually lost to many of the sufferers from their inability

to pursue it; and because this mode of Indemnification bears no proportion to the *summary* method adopted for the satisfaction of British claims.

5thly. Because, this compact admits British subjects to an equal participation with our own citizens of the interior traffic of the United states with the neighboring Indians thro' our whole territorial dominions; while the advantages ostensibly reciprocated to our citizens are limited both in their nature and extent.

6thly. Because, the alien duties upon merchandize imported into the United states by British subjects in their own Bottoms is, if not wholly suspended, at least contracted, not to be increased. —

7thly. Because, the Commerce the United States have hitherto enjoyed in India, *in common with other Nations*, is so restricted that in future it will be of little, or no substantial benefit to our own Citizens. —

[488.] 8thly. Because, in every stipulation respecting our intercourse with the *Colonial* possessions of Great Britain, the whole commerce of the United States in such intercourse is *colonized* in return. —

9thly. Because, the clause by which the British Government reserves to itself the right of imposing on American Vessels, entering British ports in Europe, a Duty which shall countervail the difference of the Duty payable on the importation of European and Asiatic Goods into the United States in British or American bottoms, places it in the power of *that* Government to enable British subjects to become the importers of Asiatic and European Goods into the United states to the exclusion of *our own* Citizens.

10thly. Because, altho' the terms of said Treaty purport to be reciprocal in many instances, yet from the local situation and existing circumstances of the United states, and the Pacific system of policy they have adopted, that reciprocity is merely nominal and delusive.

11thly. Because, it prevents the United States from imposing any further restrictions on the British trade alone, and because it is stipulated that neither the debts due from Individuals of the one Nation to Individuals of the other, nor shares, nor monies which they may have in the public funds, or in any public or private Banks, shall *ever* in any event of war, or national difference, be sequestered or confiscated, — as it is far from being impossible that the exercise of this right may in the opinion of the Legislature of the United states, contribute to preserve the peace of our Country, and protect the rights and property of the citizens from violation, we therefore esteem it highly impolitic that the

public faith should be pledged that *it* shall *never* be exercised under any circumstances whatever. —

[489.] 12thly. Because, it concedes a Right to the British Government, to search and detain our Vessels in time of War between them and other Nations, under frivolous and vexatious pretexts.

13thly. Because, it provides that Ship timber, Tar, Hemp, Sails, and Copper, shall be considered contraband of War, which articles are expressly stipulated to be free by the Treaties already subsisting between the United States and all other Nations with whom they are in compact.

14thly. Because, it surrenders all or most of the Benefits of a Commercial nature which we had a right to expect from our Neutrality in the present European War. —

15thly. Because, it precludes the hope of receiving any advantage from the modern Law of nations referred to in the PRESIDENTS Proclamation of Neutrality; adopted by most of the Nations of Europe in the last War, and to which we *then* acceded, and have since secured in our Treaties with all other Nations.

16thly. Because, it not only surrenders the right of carrying the property of any Nation at War with Great Britain in our Vessels freely, but abandons all pretentions even to the freight.

17thly. Because, it permits the British nation to convert provisions destined to other Nations at War with them, to their own use, on payment of what *they* may deem a reasonable profit; a measure, not only injurious to the interest of the American Merchant, but which will prevent our citizens from carrying American productions to other Countries, which by the Laws of Nature and Nations they have a right to do without molestation.

18thly. Because, it limits the Power of Congress delegated to them by the Constitution, — "To regulate our Commerce with foreign Nations," — by prescribing conditions, and creating impediments to the exercise of that Power.

[490.] 19thly. Because, it exposes the United States and their Commerce, to similar embarrassments from other Commercial nations, all of whom *probably* regulate our trade by this partial standard. —

and Lastly, — Because, in the opinion of the Inhabitants of this town, the Nature and Extent of the Exports of the United States are *such*, that in all their stipulations with foreign Nations, they have it in their power to secure a perfect reciprocity of intercourse not only with the home Dominions of such Nations, but with all their colonial dependences. —

It is further *Resolved*, that a Copy of the foregoing Proceedings, attested by the Town Clerk be immediately transmitted to the PRESIDENT of the United States, that they may be respectfully submitted to his consideration. — And we earnestly hope, and confidently rely, that his Prudence, Fortitude and Wisdom which have more than once been eminently instrumental in the salvation of his Country, will be equally conspicuous on the present occasion, and that the Reasons we have assigned, will have their influence to induce him to withhold his signature from the Ratification of this alarming Instrument.

In addition to which they find it is almost impossible to open new [**494.**] Graves without disturbing the relicts of the Dead already interred. From an equal regard to Health and from a decent respect for both the living and the Dead, they recommend it to the Inhabitants to adopt the following measures.

1st. That no Graves or new Tombs shall be opened or built, in either the Common or Chapel burying Grounds, after the first day of May next.

2dly. As the South Burying grounds is already sufficiently large for the present accommodation of the Inhabitants and will admit of such enlargement, that the Selectmen be empowered to allot to any Inhabitant who may apply for the same, sufficient Ground for erecting a Tomb, in this Ground, and to enlarge the said South Burying Ground in a direction westerly whenever the public convenience shall in their judgment require it.

3d. Inasmuch as in remarkably inclement weather, it may be inconvenient for Funerals to proceed to the South Burying Ground, that the Selectmen cause to be erected under the Vestry room of the Stone Chapel, or in some other part of the Chapel burying ground, a Vault or Tomb suitable for a temporary deposit,

in which any of the Inhabitants, who may incline thereto, shall have a right to deposit the Bodies of their deceased Friends or relatives, for a term of time not exceeding twenty four hours, (unless in particular cases) by special permission of the Selectmen, until it may be convenient for them to remove such Bodies to the place of final interment, —
